Assurance, Challenge and Improvement in Health and Social Care

It should be noted that this inspection report should not be regarded as a comprehensive review of all strengths and areas for improvement that exist in the service. The findings reported on are those which came to the attention of RQIA during the course of this inspection. The findings contained within this report do not exempt the service provider from their responsibility for maintaining compliance with legislation, standards and best practice.

1.0 What we look for

2.0 Profile of service

This practice was initially registered with two dental surgeries. A variation to registration application to increase the number of registered dental surgeries to three was submitted to RQIA.

3.0 Service details

Applicant Organisation/Registered Provider: Dental World 1 Limited Registered person: Ms Rita Dhariwal	Applicant Registered Manager: Position vacant
Person in charge of the establishment at the time of inspection: Ms Lesley Vance	Date manager registered: As Above
Categories of care: Independent Hospital (IH) – Dental Treatment	Number of registered places: Two increasing to three

4.0 Inspection summary

An unannounced variation to registration premises inspection of Donaghadee Dental Practice took place on 3 May 2018 from 13.30 to 14.15.

This inspection was underpinned by The Health and Personal Social Services (Quality, Improvement and Regulation) (Northern Ireland) Order 2003; The Independent Health Care Regulations (Northern Ireland) 2005, The Regulation and Improvement Authority (Independent Health Care) (Fees and Frequency of Inspections) (Amendment) Regulations (Northern Ireland) 2011 and the Department of Health (DOH) Minimum Standards for Dental Care and Treatment (2011).

The inspection sought to assess an application submitted to the Regulation and Quality Improvement Authority (RQIA) for the registration of Clear Dental Larne as an Independent Hospital providing dental treatment.

No areas for improvement were identified during the inspection.

The findings of this report will provide the practice with the necessary information to assist them to fulfil their responsibilities, enhance practice and patients experience.

Information has been gathered throughout the registration process. Scrutiny of this information means that registration of the additional dental surgery at this practice is granted from an estates perspective.

4.1 Inspection outcome

	Regulations	Standards
Total number of areas for improvement	0	0

This inspection resulted in no areas for improvement being identified. Findings of the inspection were discussed with Ms Lesley Vance, as part of the inspection process and can be found in the main body of the report.

Enforcement action did not result from the findings of this inspection.

5.0 How we inspect

During the inspection the inspector met with Ms Lesley Vance. A tour of the premises was also undertaken to inspect the surgery providing the additional dental chair.

The following records were examined during the inspection:

- Operational policies and procedures
- Statement of purpose
- Fire Risk Assessment
- Legionella Risk Assessment.

The findings of the inspection were provided to Ms Lesley Vance at the conclusion of the inspection.

6.0 The inspection

6.1 Inspection findings

Premises/environment

The new dental surgery had been completed to a high standard and no areas of improvement were identified.

A range of documentation in relation to the maintenance and upkeep of the premises was presented for review during this premises inspection. This documentation included inspection and test reports for various elements of the engineering services and risk assessments. A range of fire protection measures are in place for the premises. This includes a fire detection and alarm system, emergency lighting installation, portable fire-fighting equipment, structural fire separation and protection to the means of escape. A fire risk assessment had been undertaken and was available in the premises at the time of the inspection.

Records for the regular testing of the premises fire detection and alarm system, emergency lighting installation and portable fire fighting equipment were in place and available for inspection.

There are arrangements in place for routine premises management and upkeep as well as timely breakdown/repair maintenance. The premises were found to have been completed and maintained to a high standard throughout and no further requirements or recommendations have been made in respect of the premises.

The fire risk assessment was discussed at the time of the inspection and the inspector agreed to forward a copy of 'Health Technical Memorandum 86, Fire risk assessment in community healthcare premises'. This may provide a more suitable risk assessment template for the assessor to use at the next review of the fire risk assessment.

A current legionella risk assessment was in place and suitable control measures are being implemented with regards to the hot and cold water system, and the dental unit water lines at each chair.

Areas for improvement

No areas for improvement were identified during the inspection and registration of the additional dental surgery at this practice is granted from an estates perspective.

	Regulations	Standards
Total number of areas for improvement	0	0

7.0 Quality improvement plan

There were no areas for improvement identified during this inspection, and a QIP is not required or included, as part of this inspection report.
