## **4.0 The inspection**

### **4.1 Review of requirements and recommendations from the most recent inspection dated 30 June 2016**

The most recent inspection of the home was an unannounced care inspection. No requirements or recommendations were made as a result of this inspection.

### **4.2 Review of requirements and recommendations from the last care inspection dated 30 June 2016**

There were no requirements or recommendations made as a result of the last care inspection.

### **4.3 Is care safe?**

The registered manager confirmed the staffing levels for the home and that these were subject to regular review to ensure the assessed needs of the residents were met. No concerns were raised regarding staffing levels during discussion with residents, residents' representatives and staff.

A review of the duty roster confirmed that it accurately reflected the staff working within the home.

Review of completed induction records and discussion with the registered manager and staff evidenced that an induction programme was in place for all staff, relevant to their specific roles and responsibilities.

Discussion with staff confirmed that mandatory training, supervision and appraisal of staff was regularly provided. A schedule for mandatory training, annual staff appraisals and staff supervision was maintained and was reviewed during the inspection.

Discussion with the registered manager confirmed that staff were recruited in line with Regulation 21 (1) (b), Schedule 2 of The Residential Care Homes Regulations (Northern Ireland) 2005 and that records were retained at the organisation's personnel department.

Enhanced Access NI disclosures were viewed by the registered manager for all staff prior to the commencement of employment. Personnel records reviewed confirmed that Access NI information was managed in line with best practice.

Arrangements were in place to monitor the registration status of staff with their professional body.

The adult safeguarding policy and procedure in place was consistent with the current regional guidance and included the name of the safeguarding champion, definitions of abuse, types of abuse and indicators, onward referral arrangements, contact information and documentation to be completed. A safeguarding champion has been established.

Discussion with staff confirmed that they were aware of the new regional guidance (Adult Safeguarding Prevention and Protection in Partnership, July 2015) and a copy was available for staff within the home. Staff were knowledgeable and had a good understanding of adult safeguarding principles. They were also aware of their obligations in relation to raising concerns about poor practice and whistleblowing. A review of staff training records confirmed that mandatory adult safeguarding training was provided for all staff.

Discussion with the registered manager, review of accident and incidents notifications, care records and complaints records confirmed that all suspected, alleged or actual incidents of abuse were fully and promptly referred to the relevant persons and agencies for investigation in accordance with procedures and legislation; written records were retained.

The registered manager confirmed there were risk management procedures in place relating to the safety of individual residents. Discussion with the registered manager identified that the home did not accommodate any individuals whose assessed needs could not be met. Review of care records identified that individual care needs assessments and risk assessments were obtained prior to admission.

The registered manager confirmed there were restrictive practices employed within the home, notably locked doors, keypad entry systems, lap belts, etc. Discussion with the registered manager regarding such restrictions confirmed these were appropriately assessed, documented, minimised and reviewed with the involvement of the multi-professional team, as required.

Inspection of care records confirmed there was a system of referral to the multi-professional team when required. Behaviour management plans were devised by specialist behaviour management teams from the trust and noted to be regularly updated and reviewed as necessary.

The registered manager and examination of accident and incident records confirmed that when individual restraint was employed, the appropriate persons / bodies were informed.

The registered manager confirmed there were risk management policy and procedures in place. Discussion with the registered manager and review of the home's policy and procedures relating to safe and healthy working practices confirmed that these were appropriately maintained and reviewed regularly e.g. COSHH, fire safety etc.

Staff training records confirmed that all staff had received training in IPC in line with their roles and responsibilities. Discussion with staff established that they were knowledgeable and had understanding of IPC policies and procedures. Inspection of the premises confirmed that there were wash hand basins, adequate supplies of liquid soap, alcohol hand gels and disposable towels wherever care was delivered. Observation of staff practice identified that staff adhered to IPC procedures.

Good standards of hand hygiene were observed to be promoted within the home among residents, staff and visitors. Notices promoting good hand hygiene were displayed throughout the home in both written and pictorial formats.

The registered manager reported that there had been no outbreaks of infection within the last year. Any outbreak would be managed in accordance with home policy and procedures, reported to the Public Health Agency, the trust and RQIA with appropriate records retained.

A general inspection of the home was undertaken and the residents' bedrooms were found to be personalised with photographs, memorabilia and personal items. The home was fresh smelling, clean and appropriately heated. The home has had a number of carpets replaced new furniture in place and there are further plans for the rest of the home to be redecorated next year.

Inspection of the internal and external environment identified that the home and grounds were kept tidy, safe, suitable for and accessible to residents, staff and visitors. There were no obvious hazards to the health and safety of residents, visitors or staff. Discussion with the registered manager confirmed that risk assessments and action plans were in place to reduce risk where possible.

The home had an up to date fire risk assessment in place and all recommendations were noted to be addressed.

Review of staff training records confirmed that staff completed fire safety training twice annually. Fire drills were completed 6 months. Records were retained of staff who participated and any learning outcomes. Fire safety records identified that fire-fighting equipment, fire alarm systems, emergency lighting and means of escape were checked and were regularly maintained. Individual residents had a completed Personal Emergency Evacuation Plan (PEEPs) in place.

### Areas for improvement

No areas for improvement were identified during the inspection in relation to this domain.

### 4.4 Is care effective?

Discussion with the registered manager established that staff in the home responded appropriately to and met the assessed needs of the residents.

A review of four care records showed that three were not maintained in line with the legislation and standards. One care record did not have any care plans in place and two did not accurately reflect the residents care needs. A recommendation was made in this regard.

The registered manager confirmed that systems were in place to ensure effective communication with residents, their representatives and other key stakeholders. These included pre-admission information, multi-professional team reviews, residents' meetings, staff meetings and staff shift handovers. The registered manager and staff confirmed that management operated an open door policy in regard to communication within the home.

Residents and their representatives spoken with and observation of practice evidenced that staff were able to communicate effectively with residents, their representatives and other key stakeholders.

Minutes of resident and/or their representative meetings were reviewed during the inspection. A review of care records, along with accident and incident reports, confirmed that referral to other healthcare professionals was timely and responsive to the needs of the residents. The registered manager confirmed that arrangements were in place, in line with the legislation, to support and advocate for residents.

### Areas for improvement

One area for improvement was identified in relation to one care plan not being completed and did not accurately reflect residents care needs.

### 4.5 Is care compassionate?

The registered manager confirmed that staff in the home promoted a culture and ethos that supported the values of dignity and respect, independence, rights, equality and diversity, choice and consent of residents.

A range of policies and procedures were in place which supported the delivery of compassionate care. Discussion with staff, residents and/or their representatives confirmed that residents' spiritual and cultural needs, including preferences for end of life care, were met within the home. Discussion with residents, their representatives and staff confirmed that action was taken to manage any pain and discomfort in a timely and appropriate manner. This was further evidenced by the review of care records for example, care plan in place for management of pain.

Residents were provided with information, in a format that they could understand, which enabled them to make informed decisions regarding their life, care and treatment.

The registered manager, residents and/or their representatives confirmed that consent was sought in relation to care and treatment. Discussion with residents, their representatives and staff along with observation of care practice and social interactions demonstrated that residents were treated with dignity and respect. Staff confirmed their awareness of promoting residents' rights, independence and dignity and were able to demonstrate how residents' confidentiality was protected.

The registered manager and staff confirmed that residents were listened to, valued and communicated with in an appropriate manner. Residents and/or their representatives confirmed that their views and opinions were taken into account in all matters affecting them.

Discussion with staff, residents, representatives and observation of practice confirmed that residents' needs were recognised and responded to in a prompt and courteous manner by staff.

There were systems in place to ensure that the views and opinions of residents, and or their representatives, were sought and taken into account in all matters affecting them, for example residents' meetings and suggestion box.

Residents are consulted with, at least annually, about the quality of care and environment. The findings from the consultation were collated into a summary report which was made available for residents and other interested parties to read. An action plan was developed and implemented to address any issues identified.

Discussion with staff, and residents, observation of practice and review of care records confirmed that residents were enabled and supported to engage and participate in meaningful activities. Arrangements were in place for residents to maintain links with their friends, families and wider community.

### Areas for improvement

No areas for improvement were identified during the inspection in relation to this domain.

### 4.6 Is the service well led?

The registered manager outlined the management arrangements and governance systems in place within the home. These were found to be in line with good practice. The needs of residents were met in accordance with the home's statement of purpose and the categories of care for which the home was registered with RQIA.

A range of policies and procedures was in place to guide and inform staff. Policies were centrally indexed and retained in a manner which was easily accessible by staff. Policies and procedures were systematically reviewed every three years or more frequently as changes occurred.

There was a complaints policy and procedure in place which was in accordance with the legislation and Department of Health (DOH) guidance on complaints handling. Residents and/or their representatives were made aware of how to make a complaint by way of the Residents Guide, Poster / leaflet etc. Discussion with staff confirmed that they were knowledgeable about how to receive and deal with complaints.

Review of the complaints records confirmed that arrangements were in place to effectively manage complaints from residents, their representatives or any other interested party. Records of complaints included details of any investigation undertaken, all communication with complainants, the outcome of the complaint and the complainant's level of satisfaction. Arrangements were in place to share information about complaints and compliments with staff. An audit of complaints was used to identify trends and to enhance service provision.

There was an accident/incident/notifiable events policy and procedure in place which included reporting arrangements to RQIA. A review of accidents/incidents/notifiable events confirmed that these were effectively documented and reported to RQIA and other relevant organisations in accordance with the legislation and procedures. A regular audit of accidents and incidents

was undertaken and was reviewed as part of the inspection process. Learning from accidents and incidents was disseminated to all relevant parties and action plans developed to improve practice.

There were quality assurance systems in place to drive quality improvement which included regular audits and satisfaction surveys.

There was a system to ensure medical device alerts, safety bulletins, serious adverse incident alerts and staffing alerts were appropriately reviewed and actioned.

Discussion with the registered manager confirmed that information in regard to current best practice guidelines was made available to staff. Staff were provided with mandatory training and additional training opportunities relevant to any specific needs of the residents. A monthly monitoring visit was undertaken as required under Regulation 29 of The Residential Care Homes Regulations (Northern Ireland) 2005; a report was produced and made available for residents, their representatives, staff, trust representatives and RQIA to read.

There was a clear organisational structure and all staff were aware of their roles, responsibility and accountability. This was outlined in the home's Statement of Purpose and Residents Guide. Discussion with the registered provider/s identified that they had understanding of their role and responsibilities under the legislation. The registered manager confirmed that the registered provider was kept informed regarding the day to day running of the home.

The registered manager confirmed that the management and control of operations within the home was in accordance with the regulatory framework. Inspection of the premises confirmed that the RQIA certificate of registration and employers liability insurance certificate were displayed. Review of governance arrangements within the home and the evidence provided within the returned RQIA Quality Improvement Plan (QIP) confirmed that the registered provider/s respond to regulatory matters in a timely manner.

Review of records and discussion with the registered manager and staff confirmed that any adult safeguarding issues were managed appropriately and that reflective learning had taken place. The registered manager confirmed that there were effective working relationships with internal and external stakeholders.

The home had a whistleblowing policy and procedure in place and discussion with staff established that they were knowledgeable regarding this. The registered manager confirmed that staff could also access line management to raise concerns they will offer support to staff.

Discussion with staff confirmed that there were good working relationships within the home and that management were responsive to suggestions and/or concerns raised.

The registered manager confirmed that there were arrangements in place for managing identified lack of competency and poor performance for all staff. There were also open and transparent methods of working and effective working relationships with internal and external stakeholders.

### **Areas for improvement**

No areas for improvement were identified during the inspection in relation to this domain.

## 5.0 Quality improvement plan

Any issues identified during this inspection are detailed in the QIP. Details of the QIP were discussed with Norma Pickering, registered manager as part of the inspection process. The timescales commence from the date of inspection.

The registered provider/manager should note that failure to comply with regulations may lead to further enforcement action including possible prosecution for offences. It is the responsibility of the registered provider to ensure that all requirements and recommendations contained within the QIP are addressed within the specified timescales.

Matters to be addressed as a result of this inspection are set in the context of the current registration of the residential care home. The registration is not transferable so that in the event of any future application to alter, extend or to sell the premises RQIA would apply standards current at the time of that application.

## 5.1 Statutory requirements

This section outlines the actions which must be taken so that the registered provider meets legislative requirements based on The Residential Care Homes Regulations (Northern Ireland) 2005.

## 5.2 Recommendations

This section outlines the recommended actions based on research, recognised sources and DHSSPS Residential Care Homes Minimum Standards, August 2011. They promote current good practice and if adopted by the registered provider/manager may enhance service, quality and delivery.

## 5.3 Actions to be taken by the registered provider

The QIP should be completed and detail the actions taken to meet the legislative requirements and recommendations stated. The registered provider should confirm that these actions have been completed and return the completed QIP via portal to [care.team@rqia.org.uk](mailto:care.team@rqia.org.uk) for assessment by the inspector.

It should be noted that this inspection report should not be regarded as a comprehensive review of all strengths and areas for improvement that exist in the service. The findings reported on are those which came to the attention of RQIA during the course of this inspection. The findings contained within this report do not exempt the registered provider from their responsibility for maintaining compliance with the regulations and standards. It is expected that the requirements and recommendations outlined in this report will provide the registered provider with the necessary information to assist them to fulfil their responsibilities and enhance practice within the service.
