1. Summary of Inspection

An announced care inspection took place on 6 August 2015 from 09.55 to 11.25. Overall on the day of the inspection the management of medical emergencies was found to be safe, effective and compassionate. Recruitment and selection were found to be generally safe, effective and compassionate. An area for improvement was identified and are set out in the Quality Improvement Plan (QIP) within this report.

This inspection was underpinned by The Independent Health Care Regulations (Northern Ireland) 2005, The Regulation and Improvement Authority (Independent Health Care) (Fees and Frequency of Inspections) (Amendment) Regulations (Northern Ireland) 2011, The DHSSPS Minimum Standards for Dental Care and Treatment (2011), Resuscitation Council (UK) guidelines on quality standards for cardiopulmonary resuscitation practice and training in primary dental care (November 2013), Resuscitation Council (UK) guidelines on minimum equipment list for cardiopulmonary resuscitation in primary dental care (November 2013), and the British National Formulary (BNF) guidelines on medical emergencies in dental practice.

1.1 Actions/Enforcement Taken Following the Last Care Inspection

No actions were required to be taken following the last care inspection on 25 November 2014.

1.2 Actions/Enforcement Resulting from this Inspection

Enforcement action did not result from the findings of this inspection.

1.3 Inspection Outcome

	Requirements	Recommendations
Total number of requirements and recommendations made at this inspection	1	0

The details of the QIP within this report were discussed with Mr Best, registered person, as part of the inspection process. The timescales for completion commence from the date of inspection.

2. Service Details

Registered Organisation/Registered Person: Stuart Best & Associates Ltd Mr Stuart Best	Registered Manager: Mr Stuart Best
Person in Charge of the Practice at the Time of Inspection: Mr Stuart Best	Date Manager Registered: 13 April 2012
Categories of Care: Independent Hospital (IH) – Dental Treatment	Number of Registered Dental Chairs: 2

3. Inspection Focus

The themes for the 2015/16 year are as follows:

- Medical and other emergencies; and
- Recruitment and selection

4. Methods/Process

Specific methods/processes used in this inspection include the following:

Prior to inspection the following records were analysed: staffing information, patient consultation report, and complaints declaration.

During the inspection the inspector met with Mr Best, registered person, the practice manager who is a registered dental nurse and two trained dental nurses.

The following records were examined during the inspection: relevant policies and procedures, training records, two staff personnel files, job descriptions, contracts of employment, and three patient medical histories.

5. The Inspection

5.1 Review of Requirements and Recommendations from the Previous Inspection

The previous inspection of the practice was an announced care inspection dated 25 November 2014. No requirements or recommendations were made during this inspection.

5.2 Review of Requirements and Recommendations from the Last Care Inspection Dated 25 November 2014

As above.

5.3 Medical and Other Emergencies

Is Care Safe?

Review of training records and discussion with Mr Best and staff confirmed that the management of medical emergencies is included in the induction programme and training is updated on an annual basis, in keeping with the General Dental Council (GDC) Continuing Professional Development (CPD) requirements.

Discussion with Mr Best and staff confirmed that they were knowledgeable regarding the arrangements for managing a medical emergency and the location of medical emergency medicines and equipment.

Review of medical emergency arrangements evidenced that emergency medicines are provided in keeping with the British National Formulary (BNF), and that emergency equipment as recommended by the Resuscitation Council (UK) guidelines is retained in the practice. A robust system is in place to ensure that emergency medicines and equipment do not exceed their expiry date. The Glucagon medication is stored with the rest of the emergency medications; however, a revised expiry date of 18 months from receipt of the medication was not identified to reflect the storage arrangements in keeping with the manufacturer's instructions. A replacement dose of Glucagon was obtained and a revised expiry date recorded on the medication and the checking proforma during the inspection. There is an identified individual within the practice with responsibility for checking emergency medicines and equipment.

Discussion with Mr Best and staff and review of documentation demonstrated that recording and reviewing patients' medical histories is given high priority in this practice.

On the day of the inspection the arrangements for managing a medical emergency were found to be safe.

Is Care Effective?

The policy for the management of medical emergencies reflected best practice guidance. Protocols are available for staff reference outlining the local procedure for dealing with the various medical emergencies.

Discussion with staff demonstrated that they have a good understanding of the actions to be taken in the event of a medical emergency and the practice policies and procedures.

Discussion with staff confirmed that there have been no medical emergencies in the practice since the previous inspection.

On the day of the inspection the arrangements for managing a medical emergency were found to be effective.

Is Care Compassionate?

Review of standard working practices demonstrated that the management of medical and other emergencies incorporate the core values of privacy, dignity and respect.

During discussion staff demonstrated a good knowledge and understanding of the core values that underpins all care and treatment in the practice.

On the day of the inspection the arrangements for managing a medical emergency were found to be compassionate.

Areas for Improvement

No areas for improvement were identified during the inspection.

Number of Requirements:	0	Number of Recommendations:	0
--------------------------------	----------	-----------------------------------	----------

5.4 Recruitment and Selection

Is Care Safe?

There was a recruitment policy and procedure available. The policy was comprehensive and reflected best practice guidance.

Two personnel files of staff recruited since registration with RQIA were examined. The following was noted:

- positive proof of identity, including a recent photograph;
- two written references;
- details of full employment history, including an explanation of any gaps in employment;
- documentary evidence of qualifications, where applicable;
- evidence of current GDC registration, where applicable;
- criminal conviction declaration on application;
- confirmation that the person is physically and mentally fit to fulfil their duties; and
- evidence of professional indemnity insurance, where applicable.

Review of the two files evidenced that an enhanced AccessNI check was received in respect of one staff member; however, this was not received until after the commencement of employment. Information pertaining to the disclosure was retained in keeping with AccessNI's code of practice. Mr Best provided assurances that an enhanced AccessNI check was received in respect of the other staff member, however, the original check was destroyed and a record was not retained in respect of the disclosure information.

A staff register was retained containing staff details including, name, date of birth, position, dates of employment, and details of professional qualifications and professional registration with the GDC, where applicable.

Mr Best confirmed that a robust system is in place to review the professional indemnity status of registered dental professionals who require individual professional indemnity cover. Review of indemnity records evidenced that appropriate indemnity cover is in place.

On the day of the inspection, it was identified that some improvement is necessary to ensure that recruitment and selection procedures are safe.

Is Care Effective?

The dental service's recruitment and selection procedures comply with all relevant legislation including checks to ensure qualifications, registrations and references are bona fide, with the exception of obtaining enhanced AccessNI checks prior to the commencement of employment.

Two personnel files were reviewed. It was noted that each file included a contract of employment/agreement and job description.

Induction programme templates are in place relevant to specific roles within the practice. A sample of two evidenced that induction programmes are completed when new staff join the practice.

Discussion with the practice manager and two trainee dental nurses confirmed that staff have been provided with a job description, contract of employment/agreement and have received induction training when they commenced work in the practice.

Discussion with staff confirmed that they are aware of their roles and responsibilities.

Clinical staff spoken with confirmed that they have current GDC registration and that they adhere to GDC CPD requirements.

On the day of the inspection recruitment and selection procedures were generally found to be effective.

Is Care Compassionate?

As discussed, review of recruitment and selection procedures demonstrated good practice in line with legislative requirements, with the exception of obtaining enhanced AccessNI checks prior to the commencement of employment.

Recruitment and selection procedures, including obtaining an enhanced AccessNI check, minimise the opportunity for unsuitable people to be recruited in the practice. The importance of obtaining enhanced AccessNI checks prior to the commencement of employment, to minimise the opportunity for unsuitable people to be recruited in the practice was discussed with Mr Best.

Discussion with Mr Best and staff demonstrated that they have a good knowledge and understanding of the GDC Standards for the Dental Team and the Scope of Practice.

Discussion with Mr Best and staff demonstrated that the core values of privacy, dignity, respect and patient choice are understood.

On the day of the inspection recruitment and selection procedures were found to be compassionate. However, robust arrangements are needed in relation to enhanced AccessNI checks.

Areas for Improvement

Enhanced AccessNI checks must be undertaken and received prior to the commencement of employment of new staff and a record retained of pertinent disclosure information prior to disclosure disposal in keeping with AccessNI's code of practice.

5.5 Additional Areas Examined

5.5.1 Staff Consultation/Questionnaires

During the course of the inspection, the inspector spoke with Mr Best, registered person, the practice manager and two trained dental nurses. Questionnaires were also provided to staff prior to the inspection by the practice on behalf of the RQIA. Four were returned to RQIA within the timescale required.

Review of submitted questionnaires and discussion with staff evidenced that they were provided with a job description and contract of employment/agreement on commencing work in the practice. Staff also confirmed that induction programmes are in place for new staff which includes the management of medical emergencies. Staff confirmed that annual training is provided on the management of medical emergencies.

5.5.2 Complaints

It is not in the remit of RQIA to investigate complaints made by or on the behalf of individuals, as this is the responsibility of the providers. However, if there is considered to be a breach of regulation as stated in The Independent Health Care Regulations (Northern Ireland) 2005, RQIA has a responsibility to review the issues through inspection.

A complaints questionnaire was forwarded by RQIA to the practice for completion. The returned questionnaire indicated that no complaints have been received for the period 1 January 2014 to 31 March 2015.

5.5.3 Patient Consultation

The need for consultation with patients is outlined in The Independent Health Care Regulations (Northern Ireland) 2005, Regulation 17 (3) and The Minimum Standards for Dental Care and Treatment 2011, Standard 9. A patient consultation questionnaire was forwarded by RQIA to the practice for completion. A copy of the most recent patient satisfaction report was submitted to RQIA prior to the inspection.

Review of the most recent patient satisfaction report demonstrated that the practice pro-actively seeks the views of patients about the quality of treatment and other services provided. Patient feedback whether constructive or critical, is used by the practice to improve, as appropriate.

6. Quality Improvement Plan

The issue identified during this inspection is detailed in the QIP. Details of this QIP were discussed with Mr Best, registered person, as part of the inspection process. The timescales commence from the date of inspection.

The registered person/manager should note that failure to comply with regulations may lead to further enforcement action including possible prosecution for offences. It is the responsibility of the registered person/manager to ensure that all requirements and recommendations contained within the QIP are addressed within the specified timescales.

Matters to be addressed as a result of this inspection are set in the context of the current registration of your premises. The registration is not transferable so that in the event of any future application to alter, extend or to sell the premises the RQIA would apply standards current at the time of that application.

6.1 Statutory Requirements

This section outlines the actions which must be taken so that the registered person/s meets legislative requirements based on The HPSS (Quality, Improvement and Regulation) (Northern Ireland) Order 2003, and The Independent Health Care Regulations (Northern Ireland) 2005.

6.2 Recommendations

This section outlines the recommended actions based on research, recognised sources and The DHSSPS Minimum Standards for Dental Care and Treatment (2011). They promote current good practice and if adopted by the registered person/s may enhance service, quality and delivery.

6.3 Actions Taken by the Registered Manager/Registered Person

The QIP should be completed by the registered person/registered manager and detail the actions taken to meet the legislative requirements stated. The registered person will review and approve the QIP to confirm that these actions have been completed. Once fully completed, the QIP will be returned to independent.healthcare@rqia.org.uk and assessed by the inspector.

It should be noted that this inspection report should not be regarded as a comprehensive review of all strengths and weaknesses that exist in the practice. The findings set out are only those which came to the attention of RQIA during the course of this inspection. The findings contained within this report do not absolve the registered person(s) from their responsibility for maintaining compliance with minimum standards and regulations. It is expected that the requirements and recommendations set out in this report will provide the registered person(s) with the necessary information to assist them in fulfilling their responsibilities and enhance practice within the practice.

Quality Improvement Plan
