

# Announced Care Inspection Report

## 02 May 2017

## Corry Dental Care

**Type of service: Independent Hospital (IH) – Dental Treatment**

**Address: 18 The Diamond Centre, Magherafelt, BT45 6ED**

**Tel no: 028 7930 0020**

**Inspector: Philip Colgan**

[www.rqia.org.uk](http://www.rqia.org.uk)

Assurance, Challenge and Improvement in Health and Social Care

## 1.0 Summary

An announced inspection of Corry Dental Care took place on 2 May 2017 from 08:35 to 10.55.

The inspection sought to determine if the service was delivering safe, effective and compassionate care and if the service was well led.

### Is care safe?

Observations made, review of documentation and discussion with Mr Corry, registered person and staff demonstrated that systems and processes were in place to ensure that care provided in the establishment was safe. Areas reviewed included staffing, recruitment and selection, safeguarding, management of medical emergencies, infection prevention control and decontamination, radiology and the general environment. No requirements or recommendations have been made.

### Is care effective?

Observations made, review of documentation and discussion with Mr Corry and staff demonstrated that systems and processes were in place to ensure that care provided in the establishment was effective. Areas reviewed included clinical records, health promotion, audits and communication. No requirements or recommendations have been made.

### Is care compassionate?

Observations made, review of documentation and discussion with Mr Corry and staff demonstrated that arrangements were in place to promote patients' dignity, respect and involvement in decision making. No requirements or recommendations have been made.

### Is the service well led?

Information gathered during the inspection evidenced that there was effective leadership and governance arrangements in place which creates a culture focused on the needs of patients in order to deliver safe, effective and compassionate care. Areas reviewed included organisational and staff working arrangements, the arrangements for policy and risk assessment reviews, the arrangements for dealing with complaints, incidents and alerts, insurance arrangements and the registered person's understanding of their role and responsibility in accordance with legislation. No requirements or recommendations have been made.

This inspection was underpinned by The Independent Health Care Regulations (Northern Ireland) 2005, The Regulation and Improvement Authority (Independent Health Care) (Fees and Frequency of Inspections) (Amendment) Regulations (Northern Ireland) 2011 and the Department of Health, Social Services and Public Safety (DHSSPS) Minimum Standards for Dental Care and Treatment (2011).

While we assess the quality of services provided against regulations and associated DHSSPS care standards, we do not assess the quality of dentistry provided by individual dentists.

## 1.1 Inspection outcome

	Requirements	Recommendations
<b>Total number of requirements and recommendations made at this inspection</b>	0	0

This inspection resulted in no requirements or recommendations being made. Findings of the inspection were discussed with Mr John Corry, registered provider, as part of the inspection process and can be found in the main body of the report.

Enforcement action did not result from the findings of this inspection.

## 1.2 Actions/enforcement taken following the most recent care inspection

There were no further actions required to be taken following the most recent inspection.

## 2.0 Service details

<b>Registered organisation/registered person:</b> Mr John Corry	<b>Registered manager:</b> Mrs Maria Corry
<b>Person in charge of the service at the time of inspection:</b> Mr John Corry	<b>Date manager registered:</b> 10 May 2012
<b>Categories of care:</b> Independent Hospital(IH) – Dental Treatment	<b>Number of registered places:</b> 3

## 3.0 Methods/processes

Questionnaires were provided to patients and staff prior to the inspection by the practice on behalf of the RQIA. Prior to inspection we analysed the following records: staffing information, complaints declaration and returned completed staff and patient questionnaires.

During the inspection the inspector met with Mr John Corry, registered person, and three staff members; the practice manager, an associate dentist and a dental nurse. A tour of the premises was also undertaken.

Records were examined during the inspection in relation to the following areas:

- staffing
- recruitment and selection
- safeguarding
- management of medical emergencies
- infection prevention and control

- radiography
- clinical record recording arrangements
- health promotion
- management and governance arrangements
- maintenance arrangements.

#### **4.0 The inspection**

##### **4.1 Review of requirements and recommendations from the most recent inspection dated 04 May 2016**

The most recent inspection of the establishment was an announced care inspection. No requirements or recommendations were made during this inspection.

##### **4.2 Review of requirements and recommendations from the last care inspection dated 04 May 2016**

As above.

#### **4.3 Is care safe?**

##### **Staffing**

Three dental surgeries are in operation in this practice. Discussion with staff and review of completed staff and patient questionnaires demonstrated that there was sufficient numbers of staff in various roles to fulfil the needs of the practice and patients.

Induction programme templates were in place relevant to specific roles and responsibilities. Review of the personnel files for recently employed staff members evidenced that induction programmes had been completed when new staff joined the practice.

Procedures were in place for appraising staff performance and staff confirmed that appraisals had taken place. Staff confirmed that they felt supported and involved in discussions about their personal development. There is a system in place to ensure that all staff receive appropriate training to fulfil the duties of their role.

A review of records confirmed that a robust system was in place to review the General Dental Council (GDC) registration status and professional indemnity of all clinical staff.

##### **Recruitment and selection**

A review of the submitted staffing information and discussion with Mr Corry confirmed that two staff members have been recruited since the previous inspection. A review of the personnel files for these staff demonstrated that all the relevant information as outlined in Schedule 2 of The Independent Health Care Regulations (Northern Ireland) 2005 has been sought and retained.

There was a recruitment policy and procedure available. The policy was comprehensive and reflected best practice guidance.

## **Safeguarding**

Staff spoken with were aware of the types and indicators of abuse and the actions to be taken in the event of a safeguarding issue being identified including who the nominated safeguarding lead was.

Review of records demonstrated that all staff had received training in safeguarding children and adults as outlined in the Minimum Standards for Dental Care and Treatment 2011.

Policies and procedures were in place for the safeguarding and protection of adults and children. The policy included the types and indicators of abuse and distinct referral pathways in the event of a safeguarding issue arising with an adult or child. The relevant contact details for onward referral to the local Health and Social Care Trust should a safeguarding issue arise were included.

## **Management of medical emergencies**

A review of medical emergency arrangements evidenced that emergency medicines were provided in keeping with the British National Formulary (BNF), and that emergency equipment as recommended by the Resuscitation Council (UK) guidelines was retained. A robust system was in place to ensure that emergency medicines and equipment do not exceed their expiry date. There was an identified individual with responsibility for checking emergency medicines and equipment.

Review of training records and discussion with staff confirmed that the management of medical emergencies is included in the induction programme and training is updated on an annual basis in keeping with best practice guidance.

Discussion with staff demonstrated that they have a good understanding of the actions to be taken in the event of a medical emergency and the location of medical emergency medicines and equipment.

The policy for the management of medical emergencies reflected best practice guidance. Protocols were available for staff reference outlining the local procedure for dealing with the various medical emergencies.

## **Infection prevention control and decontamination procedures**

Clinical and decontamination areas were tidy and uncluttered and work surfaces were intact and easy to clean. Fixtures, fittings, dental chairs and equipment were free from damage, dust and visible dirt. Staff were observed to be adhering to best practice in terms of uniform and hand hygiene policies.

Staff demonstrated that they had an understanding of infection prevention and control policies and procedures and were aware of their roles and responsibilities. Staff confirmed that they have received training in infection prevention and control and decontamination in keeping with best practice. Training records were available for inspection.

There was a nominated lead who had responsibility for infection control and decontamination in the practice.

A decontamination room, separate from patient treatment areas and dedicated to the decontamination process, was available. Appropriate equipment, including washer disinfectors and steam sterilisers have been provided to meet the practice requirements. A review of documentation evidenced that equipment used in the decontamination process has been appropriately validated. A review of equipment logbooks evidenced that periodic tests are undertaken and recorded in keeping with Health Technical Memorandum (HTM) 01-05 Decontamination in primary care dental practices.

It was confirmed that the practice continues to audit compliance with HTM 01-05 using the Infection Prevention Society (IPS) audit tool. The most recent IPS audit was completed during within the last six months.

A range of policies and procedures were in place in relation to decontamination and infection prevention and control.

## **Radiography**

The practice has three surgeries, each of which has an intra-oral x-ray machine. In addition the practice has an orthopan tomogram machine (OPG), which is located in a separate room.

The practice had a dedicated radiation protection file containing the relevant local rules, employer's procedures and other additional information. Records retained in the radiation protection file confirmed that staff have been authorised by the radiation protection supervisor (RPS) for their relevant duties and have received local training in relation to these duties. Review of the radiation protection file and discussion with staff evidenced that all measures are taken to optimise dose exposure. This included the use of rectangular collimation, x-ray audits and digital x-ray processing.

A copy of the local rules was on display near each x-ray machine and appropriate staff had signed to confirm that they had read and understood these. Staff spoken with demonstrated sound knowledge of the local rules and associated practice.

A review of the radiation protection file evidenced that the radiation protection advisor (RPA) completes a quality assurance check every three years. Review of the report of the most recent visit by the RPA demonstrated that no recommendations were made.

A review of documentation demonstrated that the x-ray equipment has been serviced and maintained in accordance with manufacturer's instructions.

It was demonstrated during the inspection that quality assurance systems and processes were in place to ensure that all matters relating to x-rays reflect legislative and best practice guidance.

## **Environment**

The environment was maintained to a high standard of maintenance and décor.

Detailed cleaning schedules were in place for all areas which were signed on completion. A colour coded cleaning system was in place.

Arrangements are in place for maintaining the environment. The documents reviewed included: servicing of boiler, fire detection systems, fire-fighting equipment and fixed electrical wiring installation.

A legionella risk assessment had been undertaken and water temperatures are monitored and recorded as recommended.

A fire risk assessment had been undertaken and staff confirmed that fire training and fire drills had been completed. Staff demonstrated that they were aware of the action to take in the event of a fire.

A written scheme of examination of pressure vessels was also examined.

It was confirmed that robust arrangements are in place for the management of prescription pads/forms and that written security policies are in place to reduce the risk of prescription theft and misuse.

### **Patient and staff views**

Ten patients submitted questionnaire responses to RQIA. All indicated that they felt safe and protected from harm. Nine patients indicated they were very satisfied with this aspect of the service and one indicated they were satisfied. The following comment was provided:

- “A seriously clean surgery. I always feel a sense of calm when I enter”

Four staff submitted questionnaire responses. All indicated that they felt that patients are safe and protected from harm. All staff indicated they were very satisfied with this aspect of care. Staff spoken with during the inspection concurred with this. The following comment was provided:

- “The care of patients is of the utmost importance. We always ensure the staff are trained to the highest standard”.

### **Areas for improvement**

No areas for improvement were identified during the inspection.

<b>Number of requirements:</b>	<b>0</b>	<b>Number of recommendations:</b>	<b>0</b>
--------------------------------	----------	-----------------------------------	----------

### **4.4 Is care effective?**

Staff spoken with confirmed that clinical records are updated contemporaneously during each patient's treatment session in accordance with best practice.

Mr Corry confirmed that routine dental examinations include a review of medical history, a check for gum disease and oral cancers and that treatment plans are developed in consultation with patients. Staff confirmed that patients are informed about the cost of treatments, choices and options.

Both manual and computerised records are maintained. Electronic records have different levels of access afforded to staff dependent on their role and responsibilities. Appropriate systems and processes were in place for the management of records and maintaining patient confidentiality.

Policies were available in relation to records management, data protection and confidentiality and consent. The records management policy includes the arrangements in regards to the creation, storage, recording, retention and disposal of records and data protection. The policy is in keeping with legislation and best practice guidance.

Review of documentation demonstrated that the practice is registered with the Information Commissioner's Office (ICO) and that a Freedom of Information Publication Scheme has been established.

## **Health promotion**

The practice has a strategy for the promotion of oral health and hygiene and confirmed that oral health is actively promoted on an individual level with patients during their consultations. The practice is a member of the British Dental Health Foundation. A range of health promotion information leaflets were available in the waiting area.

## **Audits**

There were arrangements in place to monitor, audit and review the effectiveness and quality of care delivered to patients at appropriate intervals which included:

- x-ray quality grading
- x-ray justification and clinical evaluation recording
- IPS HTM 01-05 compliance
- records
- review of complaints/accidents/incidents.

The practice is a training practice approved by the Northern Ireland Medical and Dental Training Agency (NIMDTA). A dental foundation year one (DF1) trainee is undergoing a current placement in the practice.

## **Communication**

Mr Corry confirmed that arrangements are in place for onward referral in respect of specialist treatments. A policy and procedure and template referral letters have been established.

Staff meetings are held on a regular basis to discuss clinical and practice management issues. Review of documentation demonstrated that minutes of staff meetings are retained. Staff spoken with confirmed that meetings also facilitated both informal and formal in-house training sessions.

Staff confirmed that there are good working relationships and there is an open and transparent culture within the practice.

A breaking bad news policy in respect of dentistry was in place.

### **Patient and staff views**

All of the patients who submitted questionnaire responses indicated that they get the right care, at the right time and with the best outcome for them. Nine patients indicated they were very satisfied with this aspect of the service and one indicated they were satisfied. The following comments were provided:

- “Sean always explains each treatment and ensures that I am happy”
- “The staff are excellent with my care”

All submitted staff questionnaire responses indicated that they felt that patients get the right care, at the right time and with the best outcome for them. All staff indicated they were very satisfied with this aspect of care. Staff spoken with during the inspection concurred with this. Staff spoken with during the inspection concurred with this. The following comment was provided:

- “The patients records are kept locked away in a fireproof room to ensure no damage or violation of patient privacy”.

### **Areas for improvement**

No areas for improvement were identified during the inspection.

<b>Number of requirements:</b>	<b>0</b>	<b>Number of recommendations:</b>	<b>0</b>
--------------------------------	----------	-----------------------------------	----------

## **4.5 Is care compassionate?**

### **Dignity, respect and involvement in decision making**

Staff spoken with demonstrated a good understanding of the core values of privacy, dignity, respect and patient choice. Staff confirmed that if they needed to speak privately with a patient that arrangements are provided to ensure the patient’s privacy is respected. Staff were observed to converse with patients and conduct telephone enquiries in a professional and confidential manner.

Staff were clear about the importance of emotional support needed when delivering care to patients who were very nervous or fearful of dental treatment.

Clinical staff confirmed that treatment options, risks and benefits were discussed with each patient to ensure they understood what treatment was available in order that they could make an informed choice. Discussion with staff demonstrated how consent would be obtained.

The practice undertakes patient satisfaction surveys on an annual basis. Review of the most recent patient satisfaction report demonstrated that the practice pro-actively seeks the views of patients about the quality of treatment and other services provided. Patient feedback whether constructive or critical, is used by the practice to improve, as appropriate.

A policy and procedure was in place in relation to confidentiality which included the arrangements for respecting patient's privacy, dignity and providing compassionate care and treatment.

### **Patient and staff views**

All of the patients who submitted questionnaire responses indicated that they are treated with dignity and respect and are involved in decision making affecting their care. Nine patients indicated they were very satisfied with this aspect of the service and one indicated they were satisfied. The following comment was provided:

- "The staff are very respectful and adhere to my needs".

All submitted staff questionnaire responses indicated that they felt that patients are treated with dignity and respect and are involved in decision making affecting their care. All staff indicated they were very satisfied with this aspect of care. Staff spoken with during the inspection concurred with this. The following comment was provided:

- "Patients are always treated respectfully. We are always open to patient opinions and reviews via our suggestion box".

### **Areas for improvement**

No areas for improvement were identified during the inspection.

<b>Number of requirements:</b>	<b>0</b>	<b>Number of recommendations:</b>	<b>0</b>
--------------------------------	----------	-----------------------------------	----------

## **4.6 Is the service well led?**

### **Management and governance arrangements**

There was a clear organisational structure within the practice and staff were able to describe their roles and responsibilities and were aware of who to speak to if they had a concern. Staff confirmed that there were good working relationships and that management were responsive to any suggestions or concerns raised. Mr Corry is the nominated person with overall responsibility for the day to day management of the practice.

Policies and procedures were available for staff reference. Observations made confirmed that policies and procedures were indexed, dated and systematically reviewed on a three yearly basis. Staff, spoken with, were aware of the policies and how to access them.

Arrangements were in place to review risk assessments.

A copy of the complaints procedure was displayed and available in the practice. Staff demonstrated a good awareness of complaints management. A complaints questionnaire was forwarded by RQIA to the practice for completion. The returned questionnaire indicated that no complaints have been received for the period 1 April 2016 to 31 March 2017.

A system was in place to ensure that notifiable events were investigated and reported to RQIA or other relevant bodies as appropriate. A system was also in place to ensure that urgent communications, safety alerts and notices are reviewed and where appropriate, made available to key staff in a timely manner.

Mr Corry confirmed that arrangements were in place to monitor, audit and review the effectiveness and quality of care delivered to patients at appropriate intervals. If required, an action plan is developed and embedded into practice to address any shortfalls identified during the audit process.

Mr Corry demonstrated a clear understanding of his role and responsibility in accordance with legislation. Information requested by RQIA has been submitted within specified timeframes. The Statement of Purpose and Patient's Guide are kept under review, revised and updated when necessary and available on request.

The RQIA certificate of registration was up to date and displayed appropriately.

Observation of insurance documentation confirmed that current insurance policies were in place.

### **Patient and staff views**

All of the patients who submitted questionnaire responses indicated that they felt that the service is well managed. Nine patients indicated they were very satisfied with this aspect of the service and one indicated they were satisfied. The following comment was provided:

- "Very kind and considerate staff both in person and on the phone"

All submitted staff questionnaire responses indicated that they felt that the service is well led. Staff spoken with during the inspection concurred with this. All staff indicated they were very satisfied with this aspect of care. Staff spoken with during the inspection concurred with this. The following comment was provided:

- "I am very comfortable to share any concerns or issues I have with the practice manager. I can deal with complaints and channel them correctly. The policies and procedures at the practice are very accessible and can be reviewed at any time".

### **Areas for improvement**

No areas for improvement were identified during the inspection.

<b>Number of requirements:</b>	<b>0</b>	<b>Number of recommendations:</b>	<b>0</b>
--------------------------------	----------	-----------------------------------	----------

## 5.0 Quality improvement plan

There were no issues identified during this inspection, and a QIP is neither required, nor included, as part of this inspection report.

It should be noted that this inspection report should not be regarded as a comprehensive review of all strengths and areas for improvement that exist in the service. The findings reported on are those which came to the attention of RQIA during the course of this inspection. The findings contained within this report do not exempt the registered person/manager from their responsibility for maintaining compliance with the regulations and standards.
