

The Regulation and  
Quality Improvement  
Authority

## **Announced Inspection**

**Name of Establishment:** Finaghy Dental Practice  
**Establishment ID No:** 11502  
**Date of Inspection:** 25 February 2015  
**Inspector's Name:** Philip Colgan  
**Inspection No:** 20962

**The Regulation and Quality Improvement Authority**  
9th floor Riverside Tower, 5 Lanyon Place, Belfast, BT1 3BT  
Tel: 028 9051 7500 Fax: 028 9051 7501

**1.0 General Information**

<b>Name of establishment:</b>	Finaghy Dental Practice
<b>Address:</b>	12 Finaghy Road South Belfast BT10 0DR
<b>Telephone number:</b>	028 9062 3559
<b>Registered organisation / registered provider:</b>	Mr Joseph Scullion
<b>Registered manager:</b>	Mr Joseph Scullion
<b>Person in charge of the establishment at the time of Inspection:</b>	Mr Joseph Scullion
<b>Registration category:</b>	IH-DT
<b>Type of service provision:</b>	Private dental treatment
<b>Maximum number of places registered: (dental chairs)</b>	3
<b>Date and type of previous inspection:</b>	Announced Inspection 18 December 2014
<b>Date and time of inspection:</b>	25 February 2015 08:45-10:25
<b>Name of inspector:</b>	Philip Colgan

## **2.0 Introduction**

The Regulation and Quality Improvement Authority (RQIA) is empowered under The Health and Personal Social Services (Quality, Improvement and Regulation) (Northern Ireland) Order 2003 to inspect dental practices providing private dental care and treatment. A minimum of one inspection per year is required.

This is a report of the announced inspection to assess the quality of services being provided. The report details the extent to which the standards measured during inspection were met.

## **3.0 Purpose of the Inspection**

The purpose of this inspection was to consider whether the service provided to patients was in accordance with their assessed needs and preferences and was in compliance with legislative requirements, minimum standards and other good practice indicators. This was achieved through a process of analysis and evaluation of available evidence.

RQIA not only seeks to ensure that compliance with regulations and standards is met but also aims to use inspection to support providers in improving the quality of services. For this reason, inspection involves in-depth examination of an identified number of aspects of service provision.

The aims of the inspection were to examine the policies, practices and monitoring arrangements for the provision of dental care, and to determine the provider's compliance with the following:

- The HPSS (Quality, Improvement and Regulation) (Northern Ireland) Order 2003;
- The Independent Health Care Regulations (Northern Ireland) 2005;
- The Regulation and Improvement Authority (Independent Health Care) (Fees and Frequency of Inspections) (Amendment) Regulations (Northern Ireland) 2011;
- The Minimum Standards for Dental Care and Treatment 2011; and
- Health Technical Memorandum HTM 01-05: Decontamination in Primary Care Dental Practices and Professional Estates Letter (PEL) (13) 13.

Other published standards which guide best practice may also be referenced during the inspection process.

#### 4.0 Methods/Process

Committed to a culture of learning, the RQIA has developed an approach which uses self-assessment, a critical tool for learning, as a method for preliminary assessment of achievement of the Minimum Standards.

The inspection process has three key parts; self-assessment (including completion of self-declaration), pre-inspection analysis and the inspection visit by the inspector.

Specific methods/processes used in this inspection include the following:

- a self-assessment was submitted prior to the inspection and has been analysed;
- discussion with Mr Joseph Scullion, registered provider;
- examination of relevant records;
- consultation with relevant staff;
- tour of the premises; and
- evaluation and feedback.

Any other information received by RQIA about this practice has also been considered by the inspector in preparing for this inspection.

#### 5.0 Consultation Process

During the course of the inspection, the inspector spoke with staff on duty. Questionnaires were provided to staff prior to the inspection by the practice, on behalf of the RQIA to establish their views regarding the service. Matters raised by staff were addressed by the inspector during the course of this inspection:

	<b>Number</b>	
<b>Discussion with staff</b>	3	
<b>Staff Questionnaires</b>	9 issued	8 returned

Prior to the inspection the registered person/s were asked, in the form of a declaration, to confirm that they have a process in place for consulting with service users and that a summary of the findings has been made available. The consultation process may be reviewed during this inspection.

## 6.0 Inspection Focus

The inspection sought to establish the level of compliance achieved with respect to the selected DHSSPS Minimum Standards for Dental Care and Treatment and a thematic focus incorporating selected standards and good practice indicators. An assessment on the progress in relation to the issues raised during and since the previous inspection was also undertaken.

In 2012 the DHSSPS requested that RQIA make compliance with best practice in local decontamination, as outlined in HTM 01-05 Decontamination in Primary Care Dental Premises, a focus for the 2013/14 inspection year.

The DHSSPS and RQIA took the decision to review compliance with best practice over two years. The focus of the two years is as follows:

- Year 1 – Decontamination – 2013/14 inspection year
- Year 2 - Cross infection control – 2014/15 inspection year

### **Standard 13 – Prevention and Control of Infection [Safe and effective care]**

**The dental service takes every reasonable precaution to make sure you are not exposed to risk of infection.**

The decontamination section of the Infection Prevention Society Audit tool, which has been endorsed by the Department of Health, was used as a framework for development of a self-assessment tool and for planned inspections during 2013/14.

The following sections of the 2013 edition of the Infection Prevention Society Audit tool, which has been endorsed by the Department of Health have been used as a framework for the development of a self-assessment tool and for planned inspections in 2014/15:

- prevention of blood-borne virus exposure;
- environmental design and cleaning;
- hand hygiene;
- management of dental medical devices;
- personal protective equipment; and
- waste.

A number of aspects of the decontamination section of the audit tool have also been revisited.

RQIA have highlighted good practice guidance sources to service providers, making them available on our website where possible. Where appropriate, requirements will be made against legislation and recommendations will be made against DHSSPS Minimum Standards for Dental Care and Treatment (2011) and other recognised good practice guidance documents.

The registered provider/manager and the inspector have each rated the practice's compliance level against each section of the self-assessment.

The table below sets out the definitions that RQIA has used to categorise the service's performance:

<b>Guidance - Compliance statements</b>		
<b>Compliance statement</b>	<b>Definition</b>	<b>Resulting Action in Inspection Report</b>
<b>0 - Not applicable</b>		A reason must be clearly stated in the assessment contained within the inspection report.
<b>1 - Unlikely to become compliant</b>		A reason must be clearly stated in the assessment contained within the inspection report.
<b>2 - Not compliant</b>	Compliance could not be demonstrated by the date of the inspection.	In most situations this will result in a requirement or recommendation being made within the inspection report.
<b>3 - Moving towards compliance</b>	Compliance could not be demonstrated by the date of the inspection. However, the service could demonstrate a convincing plan for full compliance by the end of the Inspection year.	In most situations this will result in a requirement or recommendation being made within the inspection report.
<b>4 – Substantially Compliant</b>	Arrangements for compliance were demonstrated during the inspection. However, appropriate systems for regular monitoring, review and revision are not yet in place.	In most situations this will result in a recommendation, or in some circumstances a requirement, being made within the inspection report.
<b>5 – Compliant</b>	Arrangements for compliance were demonstrated during the inspection. There are appropriate systems in place for regular monitoring, review and any necessary revisions to be undertaken.	In most situations this will result in an area of good practice being identified and comment being made within the inspection report.

## 7.0 Profile of Service

Finaghy Dental Practice is located within a former residential building which has been converted and adapted to accommodate a dental practice. The practice is located in Finaghy, on the outskirts of Belfast.

Both private and on street car parking is available for patients.

The establishment is not accessible for patients with a disability. However, arrangements are in place to accommodate patients with a disability who cannot access the surgery.

Finaghy Dental Practice operates three dental chairs, providing both private and NHS dental care. A waiting area and toilet facilities are available for patient use. There is a kitchen for staff use, an office for the practice administrator and manager, an office/x-ray room on the first floor and storage facilities. The practice has been extended to accommodate an additional surgery, a dedicated decontamination room and additional staff and patient facilities.

Mr Scullion is supported by three other dentists, a dental hygienist, a practice manager, administration and nursing staff.

Mr Scullion has been the registered provider of Finaghy Dental Practice since initial registration with RQIA in March 2012.

The establishment's statement of purpose outlines the range of services provided.

This practice is registered as an independent hospital (IH) providing dental treatment (DT).

## 8.0 Summary of Inspection

This announced inspection of Finaghy Dental Practice was undertaken by Philip Colgan on 25 February 2015 between the hours of 08:45 and 10:25. Mr Scullion, registered provider was available during the inspection and for verbal feedback at the conclusion of the inspection.

The requirement and recommendations made as a result of the previous inspection were also examined. Observations and discussion demonstrated that these have been addressed. The detail of the action taken by Mr Scullion can be viewed in the section following this summary.

Prior to the inspection, Mr Scullion completed a self-assessment using the standard criteria outlined in the theme inspected. Mr Scullion rated the practice compliance with each of the criteria examined during the inspection.

The comments provided by Mr Scullion in the self-assessment were not altered in any way by RQIA. The self-assessment is included as appendix one in this report.

During the course of the inspection the inspector met with staff, discussed operational issues, examined a selection of records and carried out a general inspection of the establishment.

Questionnaires were also issued to staff. Eight were returned to RQIA within the timescale required. Review of submitted questionnaires and discussion with staff evidenced that staff were knowledgeable regarding the inspection theme and that they have received training appropriate to their relevant roles. Staff confirmed that they are familiar with the practice policies and procedures and have received training in infection prevention and control. Clinical staff confirmed that they have been immunised against Hepatitis B.

### Inspection Theme – Cross infection control

Dental practices in Northern Ireland have been directed by the DHSSPS, that best practice recommendations in the Health Technical Memorandum (HTM) 01-05, Decontamination in primary care dental practices, along with Northern Ireland amendments, should have been fully implemented by November 2012. HTM 01-05 was updated in 2013 and Primary Care Dental Practices were advised of this through the issue of Professional Estates Letter (PEL) (13) 13 on 01 October 2013. The PEL (13) 13 advised General Dental Practitioners of the publication of the 2013 version of HTM 01-05 and the specific policy amendments to the guidance that apply in Northern Ireland.

RQIA reviewed the compliance of the decontamination aspect of HTM 01-05 in the 2013/2014 inspection year. The focus of the inspection for the 2014/2015 inspection year is cross infection control. A number of aspects of the decontamination section of HTM 01-05 have also been revisited.

A copy of the 2013 edition of HTM 01-05 Decontamination in primary dental care practices is available at the practice for staff reference. Staff are familiar with best practice guidance outlined in the document and audit compliance on an ongoing basis.

The practice has a policy and procedure in place for the prevention and management of blood-borne virus exposure, including management of spillages, sharps and inoculation incidents in accordance with national guidance. Review of documentation and discussion with Mr Scullion and staff evidenced that appropriate arrangements are in place for the prevention and management of blood-borne virus exposure. Staff confirmed that they are aware of, and are adhering to, the practice policy in this regard. Sharps management at the practice was observed to be in line with best practice.

The premises were clean and tidy and clutter was kept to a minimum. Satisfactory arrangements are in place for the cleaning of the general environment and dental equipment.

The practice has a hand hygiene policy and procedure in place and staff demonstrated that good practice is adhered to in relation to hand hygiene. Dedicated hand washing basins are available in the appropriate locations. Information promoting hand hygiene is provided for staff and patients.

A written scheme for the prevention of legionella is available. Procedures are in place for the use, maintenance, service and repair of all medical devices. Observations made and discussion with staff confirmed that dental unit water lines (DUWLs) are appropriately managed.

The practice has a policy and procedure in place for the use of personal protective equipment (PPE) and staff spoken with demonstrated awareness of this.

Observations made confirmed that PPE was readily available and used appropriately by staff.

Appropriate arrangements were in place for the management of general and clinical waste, including sharps. Waste was appropriately segregated and suitable arrangements were in place for the storage and collection of waste by a registered waste carrier. Relevant consignment notes are retained in the practice for at least three years.

A decontamination room, separate from patient treatment areas and dedicated to the decontamination process, is available. Appropriate validated equipment, including a washer disinfectant and a steam steriliser has been provided to meet the practice requirements. Equipment logbooks evidenced that periodic tests are undertaken and recorded in keeping with HTM 01-05.

The evidence gathered through the inspection process concluded that Finaghy Dental Practice is compliant with this inspection theme.

Mr Scullion confirmed on the submitted self-assessment that arrangements are in place for consultation with patients, at appropriate intervals, that feedback provided by patients has been used by the service to improve and that results of the consultation have been made available to patients.

This inspection resulted in no requirements or recommendations being made. Findings of the inspection can be found in the main body of the report.

The inspector wishes to thank Mr Scullion and staff for their helpful discussions, assistance and hospitality throughout the inspection process.

## 9.0 Follow-up on Previous Issues

### 9.1 Announced Inspection 18 December 2014

No	Regulation Ref.	Requirements	Action taken - as confirmed during this inspection	Inspector's Validation of Compliance
1	23(7)	<p>A system should be developed to ensure that a written record is retained of all complaints. This record should be separate from the patient records. The complaints record should include the following:</p> <ul style="list-style-type: none"> <li>• details of the complainant;</li> <li>• issues raised;</li> <li>• details of the investigation findings- including any actions taken to resolve the complaint if applicable;</li> <li>• outcome of the complaint investigation;</li> <li>• whether the complainant was satisfied with the outcome; and</li> <li>• learning taken from the complaints investigation and actions taken to improve the service if appropriate.</li> </ul>	Observation and discussion evidenced that this requirement has been addressed.	Compliant

No	Minimum Standard Ref.	Recommendations	Action Taken – as confirmed during this inspection	Inspector's Validation of Compliance
1	9	<p>The complaints policy should be further developed to reflect the following:</p> <ul style="list-style-type: none"> <li>• complaints should be acknowledged within three working days and responded to within 20 working days;</li> <li>• the Health and Social Care Board (HSCB) and the General Dental Council (GDC) should be identified as agencies which may be utilised within the complaints investigation at local level, not routes for dissatisfaction; and</li> <li>• reference to the Ombudsman and the Dental Complaints Service in the event of dissatisfaction should specify that this is in relation to NHS dental care and treatment and private dental care and treatment respectively.</li> </ul>	Observation and discussion evidenced that this recommendation has been addressed.	Compliant
2	9	Staff training should be provided on establishment of the new system for complaints management and recording.	Discussion with staff evidenced that this recommendation has been addressed.	Compliant

## 10.0 Inspection Findings

### 10.1 Prevention of blood-borne virus exposure

<b>STANDARD 13 – Prevention and Control of Infection (Safe and effective care)</b> <b>The dental service takes every reasonable precaution to make sure you are not exposed to risk of infection.</b>	
<b>Criteria Assessed:</b> <b>11.2</b> You receive care and treatment from a dental team (including temporary members) who have undergone appropriate checks before they start work in the service. <b>13.2</b> Your dental service adheres to the appropriate infection control policies and procedures in line with current best practice and legislation. <b>13.3</b> Your dental service has systems in place, including induction and ongoing training, to make sure these policies and procedures are known, and are being appropriately applied to the service at all times.	
<b>Inspection Findings:</b> <p>Mr Scullion rated the practice arrangements for the prevention of blood-borne virus exposure as compliant during the inspection.</p> <p>The practice has a policy and procedure in place for the prevention and management of blood-borne virus exposure, including management of spillages, sharps and inoculation incidents in accordance with national guidance.</p> <p>Review of documentation and discussion with staff evidenced that:</p> <ul style="list-style-type: none"> <li>• the prevention and management of blood-borne virus exposure is included in the staff induction programme;</li> <li>• staff training has been provided for clinical staff;</li> <li>• all recently appointed staff have received an occupational health check; and</li> <li>• records are retained regarding the Hepatitis B immunisation status of clinical staff.</li> </ul> <p>Discussion with staff confirmed that they are aware of the policies and procedures in place for the prevention and management of blood-borne virus exposure.</p> <p>Observations made and discussion with staff evidenced that sharps are appropriately handled. Sharps boxes are safely positioned to prevent unauthorised access, appropriately used, signed and dated on assembly and final closure. Used sharps boxes are locked with the integral lock and stored ready for collection away from public access.</p> <p>Discussion with staff and review of documentation evidenced that arrangements are in place for the management of a sharps injury, including needle stick injury. Staff are aware of the actions to be taken in the event of a sharps injury.</p>	

<b>Provider's overall assessment of the dental practice's compliance level against the standard assessed</b>	<b>Compliant</b>
<b>Inspector's overall assessment of the dental practice's compliance level against the standard assessed</b>	<b>Compliant</b>

**10.2 Environmental design and cleaning**

<p><b>STANDARD 13 – Prevention and Control of Infection (Safe and effective care)</b>  <b>The dental service takes every reasonable precaution to make sure you are not exposed to risk of infection.</b></p>
<p><b>Criterion Assessed:</b>  <b>13.1</b> Your dental service’s premises are clean.</p>
<p><b>Inspection Findings:</b></p> <p>Mr Scullion rated the practice arrangements for environmental design and cleaning compliant during the inspection.</p> <p>The practice has a policy and procedure in place for cleaning and maintaining the environment.</p> <p>The inspector undertook a tour of the premises which were found to be maintained to a good standard of cleanliness. Clinical and decontamination areas were tidy and uncluttered and work surfaces were intact and easy to clean. Floor coverings are impervious and were covered and sealed at the edges. Fixtures, fittings, dental chairs and equipment were free from damage, dust and visible dirt.</p> <p>Discussion with staff confirmed that appropriate arrangements are in place for cleaning including:</p> <ul style="list-style-type: none"> <li>• equipment surfaces, including the dental chair, are cleaned between each patient;</li> <li>• daily cleaning of floors, cupboard doors and accessible high level surfaces;</li> <li>• weekly/monthly cleaning schedule;</li> <li>• cleaning equipment is colour coded;</li> <li>• cleaning equipment is stored in a non-clinical area; and</li> <li>• dirty water is disposed of at an appropriate location.</li> </ul> <p>Discussion with staff and review of submitted questionnaires confirmed that staff had received relevant training to undertake their duties.</p> <p>The practice has a local policy and procedure for spillage in accordance with the Control of Substances Hazardous to Health (COSHH) and staff spoken with demonstrated awareness of this.</p>

<p><b>Provider’s overall assessment of the dental practice’s compliance level against the standard assessed</b></p>	<p><b>Compliant</b></p>
<p><b>Inspector’s overall assessment of the dental practice’s compliance level against the standard assessed</b></p>	<p><b>Compliant</b></p>

### 10.3 Hand Hygiene

<p><b>STANDARD 13 – Prevention and Control of Infection (Safe and effective care)</b>  <b>The dental service takes every reasonable precaution to make sure you are not exposed to risk of infection.</b></p>
<p><b>Criteria Assessed:</b>  <b>13.2</b> Your dental service adheres to the appropriate infection control policies and procedures in line with current best practice and legislation.  <b>13.3</b> Your dental service has systems in place, including induction and ongoing training, to make sure these policies and procedures are known, and are being appropriately applied to the service at all times.</p>
<p><b>Inspection Findings:</b>  Mr Scullion rated the practice arrangements for hand hygiene as compliant during the inspection.   The practice has a hand hygiene policy and procedure in place.   Staff confirmed that hand hygiene is included in the induction programme and that hand hygiene training is updated periodically.   Discussion with staff confirmed that hand hygiene is performed before and after each patient contact and at appropriate intervals. Observations made evidenced that clinical staff had short clean nails and jewellery such as wrist watches and stoned rings were not worn in keeping with good practice.   Dedicated hand washing basins are available in the dental surgeries and the decontamination room and adequate supplies of liquid soap, paper towels and disinfectant rub/gel were available. Staff confirmed that nail brushes and bar soap are not used in the hand hygiene process in keeping with good practice.   Laminated posters promoting hand hygiene were on display in dental surgeries, the decontamination room and toilet facilities.</p>

<p><b>Provider’s overall assessment of the dental practice’s compliance level against the standard assessed</b></p>	<p><b>Compliant</b></p>
<p><b>Inspector’s overall assessment of the dental practice’s compliance level against the standard assessed</b></p>	<p><b>Compliant</b></p>

## 10.4 Management of Dental Medical Devices

<p><b>STANDARD 13 – Prevention and Control of Infection (Safe and effective care)</b>  <b>The dental service takes every reasonable precaution to make sure you are not exposed to risk of infection.</b></p>
<p><b>Criterion Assessed:</b>  <b>13.4</b> Your dental service meets current best practice guidance on the decontamination of reusable dental and medical instruments.</p>
<p><b>Inspection Findings:</b>  Mr Scullion rated the practice approach to the management of dental medical devices as compliant during the inspection.</p> <p>The practice has an infection control policy that includes procedures for the use, maintenance, service and repair of all medical devices.</p> <p>The inspector reviewed the written scheme for the prevention of legionella contamination in water pipes and other water lines and discussion with staff confirmed that this is adhered to.</p> <p>Staff confirmed that impression materials, prosthetic and orthodontic appliances are decontaminated prior to despatch to laboratory and before being placed in the patient’s mouth.</p> <p>Observations made and discussion with staff confirmed that DUWLs are appropriately managed. This includes that:</p> <ul style="list-style-type: none"> <li>• filters are replaced as per manufacturer’s instructions;</li> <li>• an independent bottled-water system is used to dispense distilled water to supply the DUWLs;</li> <li>• self-contained water bottles are removed, flushed with distilled water and left open to the air for drying on a daily basis in accordance with manufacturer's guidance;</li> <li>• a single use sterile water source is used for irrigation in dental surgical procedures;</li> <li>• DUWLs are drained at the end of each working day;</li> <li>• DUWLs are flushed at the start of each working day and between every patient;</li> <li>• DUWLs and handpieces are fitted with anti-retraction valves; and</li> <li>• DUWLs are purged using disinfectant as per manufacturer’s recommendations.</li> </ul>

<p><b>Provider’s overall assessment of the dental practice’s compliance level against the standard assessed</b></p>	<p><b>Compliant</b></p>
<p><b>Inspector’s overall assessment of the dental practice’s compliance level against the standard assessed</b></p>	<p><b>Compliant</b></p>

## 10.5 Personal Protective Equipment

<p><b>STANDARD 13 – Prevention and Control of Infection (Safe and effective care)</b>  <b>The dental service takes every reasonable precaution to make sure you are not exposed to risk of infection.</b></p>
<p><b>Criterion Assessed:</b>  <b>13.2</b> Your dental service adheres to the appropriate infection control policies and procedures in line with current best practice and legislation.  <b>13.3</b> Your dental service has systems in place, including induction and ongoing training, to make sure these policies and procedures are known, and are being appropriately applied to the service at all times.</p>
<p><b>Inspection Findings:</b>  Mr Scullion rated the practice approach to the management of personal protective equipment (PPE) as compliant during the inspection.</p> <p>The practice has a policy and procedure in place for the use of PPE and staff spoken with demonstrated awareness of this. Staff confirmed that the use of PPE is included in the induction programme.</p> <p>Observations made and discussion with staff evidenced that PPE was readily available and in use in the practice.</p> <p>Discussion with staff confirmed that:</p> <ul style="list-style-type: none"> <li>• hand hygiene is performed before donning and following the removal of disposable gloves;</li> <li>• single use PPE is disposed of appropriately after each episode of patient care;</li> <li>• heavy duty gloves are available for domestic cleaning and decontamination procedures where necessary; and</li> <li>• eye protection for staff and patients is decontaminated after each episode.</li> </ul> <p>Staff confirmed that they were aware of the practice uniform policy.</p>

<p><b>Provider’s overall assessment of the dental practice’s compliance level against the standard assessed</b></p>	<p><b>Compliant</b></p>
<p><b>Inspector’s overall assessment of the dental practice’s compliance level against the standard assessed</b></p>	<p><b>Compliant</b></p>

**10.6 Waste**

<p><b>STANDARD 13 – Prevention and Control of Infection (Safe and effective care)</b>  <b>The dental service takes every reasonable precaution to make sure you are not exposed to risk of infection.</b></p>
<p><b>Criterion Assessed:</b>  <b>13.2</b> Your dental service adheres to the appropriate infection control policies and procedures in line with current best practice and legislation.  <b>13.3</b> Your dental service has systems in place, including induction and ongoing training, to make sure these policies and procedures are known, and are being appropriately applied to the service at all times..</p>
<p><b>Inspection Findings:</b>  Mr Scullion rated the practice approach to the management of waste as compliant during the inspection.</p> <p>The practice has a policy and procedure in place for the management and disposal of waste in keeping with HTM 07-01. Staff confirmed that the management of waste is included in the induction programme and that waste management training is updated periodically.</p> <p>Review of documentation confirmed that contracted arrangements are in place for the disposal of waste by a registered waste carrier and relevant consignment notes are retained in the practice for at least three years.</p> <p>Observations made and discussion with staff confirmed that they are aware of the different types of waste and appropriate disposal streams.</p> <p>Pedal operated bins are available throughout the practice.</p> <p>Appropriate arrangements are in place in the practice for the storage and collection of general and clinical waste, including sharps waste.</p> <p>The inspector observed adequate provision of sharps containers including those for pharmaceutical waste, throughout the practice. These were being appropriately managed as discussed in section 10.1 of the report.</p>

<p><b>Provider’s overall assessment of the dental practice’s compliance level against the standard assessed</b></p>	<p><b>Compliant</b></p>
<p><b>Inspector’s overall assessment of the dental practice’s compliance level against the standard assessed</b></p>	<p><b>Compliant</b></p>

## 10.7 Decontamination

<p><b>STANDARD 13 – Prevention and Control of Infection (Safe and effective care)</b>  <b>The dental service takes every reasonable precaution to make sure you are not exposed to risk of infection.</b></p>
<p><b>Criterion Assessed:</b> 13.4          Your dental service meets current best practice guidance on the decontamination of reusable dental and medical instruments.</p>
<p><b>Inspection Findings:</b></p> <p>Mr Scullion rated the decontamination arrangements of the practice as compliant during the inspection.</p> <p>A decontamination room, separate from patient treatment areas and dedicated to the decontamination process, is available.</p> <p>Appropriate validated equipment, including a washer disinfectant and a steam steriliser has been provided to meet the practice requirements.</p> <p>Equipment logbooks evidenced that periodic tests are undertaken and recorded in keeping with HTM 01-05.</p>

<b>Provider’s overall assessment of the dental practice’s compliance level against the standard assessed</b>	<b>Compliant</b>

## **11.0 Additional Areas Examined**

### **11.1 Staff Consultation/Questionnaires**

During the course of the inspection, the inspector spoke with the practice manager, the practice administrator and a dental nurse.

Questionnaires were also issued to staff. Eight were returned to RQIA within the timescale required. Review of submitted questionnaires and discussion with staff evidenced that staff were knowledgeable regarding the inspection theme and that they have received training appropriate to their relevant roles. Staff confirmed that they are familiar with the practice policies and procedures and have received training in infection prevention and control. Clinical staff confirmed that they have been immunised against Hepatitis B.

### **11.2 Patient Consultation**

Mr Scullion confirmed on the submitted self-assessment that arrangements are in place for consultation with patients at appropriate intervals, that feedback provided by patients has been used by the service to, and that results of the consultation have been made available to patients.

## **12.0 Quality Improvement Plan**

The findings of this inspection were discussed with Mr Scullion as part of the inspection process.

This inspection resulted in no requirements or recommendations being made. The registered provider/manager is asked to sign the appropriate page confirming that he is assured about the factual accuracy of the content of the report.

Matters to be addressed as a result of this inspection are set in the context of the current registration of your premises. The registration is not transferable so that in the event of any future application to alter, extend or to sell the premises the RQIA would apply standards current at the time of that application.
