

Announced Care Inspection Report 2 February 2017

Newtownstewart Dental Practice

Type of service: Independent Hospital (IH) – Dental Treatment

Address: 28 Main Street, Newtownstewart, BT78 4AA

Tel no: 028 8166 2808

Inspector: Norma Munn

www.rqia.org.uk

Assurance, Challenge and Improvement in Health and Social Care

1.0 Summary

An announced inspection of Newtown Stewart Dental Practice took place on 2 February 2017 from 10:55 to 13:25.

The inspection sought to assess progress with any issues raised during and since the last care inspection and to determine if the practice was delivering safe, effective and compassionate care and if the service was well led.

Is care safe?

Observations made, review of documentation and discussion with Ms Joanne Knox, registered person, and staff demonstrated that systems and processes were generally in place to ensure that care to patients was safe and avoids and prevents harm. Areas reviewed included staffing, recruitment and selection, safeguarding, management of medical emergencies, infection prevention control and decontamination, radiology and the general environment. One requirement has been made in relation to obtaining AccessNI checks prior to commencement of employment.

Is care effective?

Observations made, review of documentation and discussion with Ms Knox and staff demonstrated that systems and processes were in place to ensure that care provided in the establishment was effective. Areas reviewed included clinical records, health promotion, audits and communication. No requirements or recommendations have been made.

Is care compassionate?

Observations made, review of documentation and discussion with Ms Knox and staff demonstrated that arrangements are in place to promote patients' dignity, respect and involvement in decision making. No requirements or recommendations have been made.

Is the service well led?

Information gathered during the inspection evidenced that there was effective leadership and governance arrangements in place which creates a culture focused on the needs of patients in order to deliver safe, effective and compassionate care. Areas reviewed included organisational and staff working arrangements, the arrangements for policy and risk assessment reviews, the arrangements for dealing with complaints, incidents and alerts, insurance arrangements and the registered provider's understanding of their role and responsibility in accordance with legislation. No requirements or recommendations have been made.

This inspection was underpinned by The Independent Health Care Regulations (Northern Ireland) 2005, The Regulation and Improvement Authority (Independent Health Care) (Fees and Frequency of Inspections) (Amendment) Regulations (Northern Ireland) 2011 and the Department of Health, Social Services and Public Safety (DHSSPS) Minimum Standards for Dental Care and Treatment (2011).

While we assess the quality of services provided against regulations and associated DHSSPS care standards, we do not assess the quality of dentistry provided by individual dentists.

1.1 Inspection outcome

	Requirements	Recommendations
Total number of requirements and recommendations made at this inspection	1	0

Details of the Quality Improvement Plan (QIP) within this report were discussed with Ms Joanne Knox, registered person, as part of the inspection process. The timescales for completion commence from the date of inspection.

Enforcement action did not result from the findings of this inspection.

1.2 Actions/enforcement taken following the most recent care inspection

There were no further actions required to be taken following the most recent inspection.

2.0 Service details

Registered organisation/registered person: Ms Joanne Knox	Registered manager: Ms Joanne Knox
Person in charge of the practice at the time of inspection: Ms Joanne Knox	Date manager registered: 17 May 2012
Categories of care: Independent Hospital (IH) – Dental Treatment	Number of registered places: 2

3.0 Methods/processes

Questionnaires were provided to patients and staff prior to the inspection by the practice on behalf of the RQIA. Prior to inspection we analysed the following records: staffing information, complaints declaration and returned completed patient and staff questionnaires.

During the inspection the inspector met with Ms Knox, registered person, an associate dentist and three dental nurses. A tour of the premises was also undertaken.

Records were examined during the inspection in relation to the following areas:

- staffing
- recruitment and selection
- safeguarding
- management of medical emergencies
- infection prevention and control
- radiography

- clinical record recording arrangements
- health promotion
- management and governance arrangements
- maintenance arrangements

4.0 The inspection

4.1 Review of requirements and recommendations from the most recent inspection dated 13 November 2015

The most recent inspection of the establishment was an announced care inspection. No requirements or recommendations were made during this inspection.

4.2 Review of requirements and recommendations from the last care inspection dated 13 November 2015

As above.

4.3 Is care safe?

Staffing

Two dental surgeries are in operation in this practice. Discussion with staff and a review of completed patient and staff questionnaires demonstrated that there was sufficient numbers of staff in various roles to fulfil the needs of the practice and patients.

Induction programme templates were in place relevant to specific roles and responsibilities. A sample of one evidenced that induction programmes had been completed when new staff joined the practice.

Procedures were in place for appraising staff performance and staff confirmed that appraisals had taken place. Staff confirmed that they felt supported and involved in discussions about their personal development. There was a system in place to ensure that all staff receive appropriate training to fulfil the duties of their role.

A review of records confirmed that a robust system was in place to review the General Dental Council (GDC) registration status and professional indemnity of all clinical staff.

Recruitment and selection

A review of the submitted staffing information and discussion with Ms Knox confirmed that one member of staff had been recruited since the previous inspection. A review of the personnel file for this staff member demonstrated that all the relevant information as outlined in Schedule 2 of The Independent Health Care Regulations (Northern Ireland) 2005 has been sought and retained. Review of documentation evidenced that the AccessNI check had been received after the member of staff had commenced work. This was discussed with Ms Knox and it was confirmed that the member of staff actually only worked for a period of one and a half days before the check was received and during that time the member of staff was supervised.

However, Ms Knox was advised that enhanced AccessNI checks must be undertaken and received prior to staff commencing any work in the practice. A requirement has been made.

There was a recruitment policy and procedure available. The policy was comprehensive and reflected best practice guidance.

Safeguarding

Staff spoken with were aware of the types and indicators of abuse and the actions to be taken in the event of a safeguarding issue being identified, including who the nominated safeguarding lead was.

Review of records demonstrated that all staff had received training in safeguarding children and adults as outlined in the Minimum Standards for Dental Care and Treatment 2011.

A safeguarding children and adults policy and procedure was in place. The policy included the types and indicators of abuse and distinct referral pathways in the event of a safeguarding issue arising with an adult or child. The relevant contact details for onward referral to the local Health and Social Care Trust should a safeguarding issue arise were included.

Ms Knox has agreed to make available regional guidance documents 'Adult Safeguarding Prevention and Protection in Partnership' (July 2015) and 'Co-operating to safeguard children and young people in Northern Ireland' (March 2016) for staff reference. Ms Knox has also agreed to review the safeguarding children and adults policy to reflect the new regional guidance.

Management of medical emergencies

A review of medical emergency arrangements evidenced that emergency medicines were provided in keeping with the British National Formulary (BNF). The format of Buccal Midazolam available was not the format recommended by the Health and Social Care Board (HSCB). Ms Knox was advised that Buccolam pre-filled syringes should be provided in doses suitable for children and adults. RQIA received confirmation by email on 10 February 2017 to confirm that Buccolam pre filled syringes had been delivered to the practice.

Emergency equipment as recommended by the Resuscitation Council (UK) guidelines was retained. A robust system was in place to ensure that emergency medicines and equipment do not exceed their expiry date. There was an identified individual with responsibility for checking emergency medicines and equipment.

Review of training records and discussion with staff confirmed that the management of medical emergencies is included in the induction programme and training is updated on an annual basis in keeping with best practice guidance.

Discussion with staff demonstrated that they have a good understanding of the actions to be taken in the event of a medical emergency and the location of medical emergency medicines and equipment.

The policy for the management of medical emergencies reflected best practice guidance. Protocols were available for staff reference outlining the local procedure for dealing with the various medical emergencies.

Infection prevention control and decontamination procedures

Clinical and decontamination areas were tidy and uncluttered and work surfaces were intact and easy to clean. Fixtures, fittings, dental chairs and equipment were free from damage, dust and visible dirt. Staff were aware of best practice in terms of the uniform and hand hygiene policies.

Discussion with staff demonstrated that they had an understanding of infection prevention and control policies and procedures and were aware of their roles and responsibilities. Staff confirmed that they have received training in infection prevention and control and decontamination in keeping with best practice. Training records were available for inspection.

There was a nominated lead who had responsibility for infection control and decontamination in the practice.

A decontamination room separate from patient treatment areas and dedicated to the decontamination process was available. Appropriate equipment, including a washer disinfectant and two steam sterilisers have been provided to meet the practice requirements. Ms Knox confirmed that one of the steam sterilisers was not in operation. A review of documentation evidenced that all equipment used in the decontamination process has been appropriately validated. A review of equipment logbooks evidenced that periodic tests are undertaken and recorded in keeping with Health Technical Memorandum (HTM) 01-05 Decontamination in primary care dental practices.

It was confirmed that the practice continues to audit compliance with HTM 01-05 using the Infection Prevention Society (IPS) audit tool. The most recent IPS audit was completed during January 2017.

A range of policies and procedures were in place in relation to decontamination and infection prevention and control.

Radiography

The practice has two surgeries, each of which has an intra-oral x-ray machine.

A dedicated radiation protection file containing the relevant local rules, employer's procedures and other additional information was retained. A review of the file confirmed that staff have been authorised by the radiation protection supervisor (RPS) for their relevant duties and have received local training in relation to these duties. It was evidenced that all measures are taken to optimise dose exposure. This included the use of rectangular collimation and x-ray audits.

A copy of the local rules was on display near each x-ray machine and appropriate staff had signed to confirm that they had read and understood these. Staff spoken with demonstrated sound knowledge of the local rules and associated practice.

The radiation protection advisor (RPA) completes a quality assurance check every three years. The most recent check had been undertaken during January 2017 and the report was not available to review. Ms Knox has agreed to address any recommendations made by the RPA.

The x-ray equipment has been serviced and maintained in accordance with manufacturer's instructions.

Quality assurance systems and processes were in place to ensure that all matters relating to x-rays reflect legislative and best practice guidance.

Environment

The environment was maintained to a good standard of maintenance and décor.

Detailed cleaning schedules and a colour coded cleaning system was in place.

Arrangements were in place for maintaining the environment. This included servicing of the fire detection system, firefighting equipment and portable appliance testing (PAT) of electrical equipment.

A legionella risk assessment had been undertaken and water temperatures are monitored and recorded as recommended.

A fire risk assessment had been undertaken and staff confirmed fire drills had been completed. Staff demonstrated that they were aware of the action to take in the event of a fire.

A written scheme of examination of pressure vessels was in place and the pressure vessels had been examined in line with the written scheme.

Patient and staff views

One patient submitted a questionnaire response to RQIA and indicated that they felt safe and protected from harm. No comments were included in submitted questionnaire response.

Three staff submitted questionnaire responses. All indicated that they felt that patients are safe and protected from harm. Staff spoken with during the inspection concurred with this. No comments were included in submitted questionnaire responses.

Areas for improvement

Enhanced AccessNI checks must be received prior to any new staff commencing work in the practice.

Number of requirements	1	Number of recommendations	0
-------------------------------	----------	----------------------------------	----------

4.4 Is care effective?

Clinical records

Staff spoken with confirmed that clinical records are updated contemporaneously during each patient's treatment session in accordance with best practice.

Routine dental examinations include a review of medical history, a check for gum disease and oral cancers and it was confirmed that treatment plans are developed in consultation with patients. It was confirmed that patients are informed about the cost of treatments, choices and options.

Both manual and computerised records are maintained. Electronic records have different levels of access afforded to staff dependent on their role and responsibilities. Appropriate systems and processes were in place for the management of records and maintaining patient confidentiality.

Policies were available in relation to records management, data protection and confidentiality and consent.

The practice is registered with the Information Commissioner's Office (ICO) and a Freedom of Information Publication Scheme has been established.

Health promotion

The practice has a strategy for the promotion of oral health and hygiene. A range of health promotion information leaflets were available throughout the practice. Ms Knox and staff confirmed that oral health is actively promoted on an individual level with patients during their consultations. The practice has a health promotion outreach programme involving local schools and the community.

Audits

There were arrangements in place to monitor, audit and review the effectiveness and quality of care delivered to patients at appropriate intervals which included:

- x-ray quality grading
- x-ray justification and clinical evaluation recording
- IPS HTM 01-05 compliance
- clinical records
- review of complaints/accidents/incidents
- antibiotic usage
- failure to attend

Communication

Ms Knox confirmed that arrangements are in place for onward referral in respect of specialist treatments.

Staff meetings are held on a quarterly basis to discuss clinical and practice management issues. Review of documentation demonstrated that minutes of staff meetings are retained. Staff spoken with confirmed that meetings also facilitated informal in house training sessions.

Staff confirmed that there are good working relationships and there is an open and transparent culture within the practice.

A breaking bad news policy in respect of dentistry was in place.

Patient and staff views

The patient who submitted a questionnaire response indicated that they get the right care, at the right time and with the best outcome for them. No comments were included in submitted questionnaire response.

All submitted staff questionnaire responses indicated that they felt that patients get the right care, at the right time and with the best outcome for them. Staff spoken with during the inspection concurred with this. No comments were included in submitted questionnaire responses.

Areas for improvement

No areas for improvement were identified during the inspection.

Number of requirements	0	Number of recommendations	0
-------------------------------	----------	----------------------------------	----------

4.5 Is care compassionate?

Dignity, respect and involvement in decision making

Staff spoken with demonstrated a good understanding of the core values of privacy, dignity, respect and patient choice. Staff confirmed that if they needed to speak privately with a patient that arrangements are provided to ensure the patient's privacy is respected. Staff were observed to converse with patients and conduct telephone enquiries in a professional and confidential manner.

The importance of emotional support needed when delivering care to patients who were very nervous or fearful of dental treatment was clear.

It was confirmed that treatment options, including the risks and benefits, were discussed with each patient. This ensures patients understand what treatment is available to them and can make an informed choice. Staff demonstrated how consent would be obtained.

The practice undertakes patient satisfaction surveys on an annual basis. Review of the most recent patient satisfaction report demonstrated that the practice pro-actively seeks the views of patients about the quality of treatment and other services provided. Patient feedback whether constructive or critical, is used by the practice to improve, as appropriate.

A policy and procedure was in place in relation to confidentiality.

Patient and staff views

The patient who submitted a questionnaire response indicated that they are treated with dignity and respect and are involved in decision making affecting their care. No comments were included in submitted questionnaire response.

All submitted staff questionnaire responses indicated that they felt that patients are treated with dignity and respect and are involved in decision making affecting their care. Staff spoken with during the inspection concurred with this. No comments were included in submitted questionnaire responses.

Areas for improvement

No areas for improvement were identified during the inspection.

Number of requirements	0	Number of recommendations	0
-------------------------------	----------	----------------------------------	----------

4.6 Is the service well led?

Management and governance arrangements

There was a clear organisational structure within the practice and staff were able to describe their roles and responsibilities and were aware of who to speak to if they had a concern. Staff confirmed that there were good working relationships and that management were responsive to any suggestions or concerns raised.

Ms Knox has overall responsibility for the day to day management of the practice.

Policies and procedures were available for staff reference. Observations made confirmed that policies and procedures were indexed, dated and systematically reviewed on a three yearly basis. Staff spoken with were aware of the policies and how to access them.

Arrangements were in place to review risk assessments.

A copy of the complaints procedure was available in the practice. Staff demonstrated a good awareness of complaints management. A complaints questionnaire was forwarded by RQIA to the practice for completion. The returned questionnaire indicated that no complaints have been received for the period 1 April 2015 to 31 March 2016.

A system was in place to ensure that notifiable events were investigated and reported to RQIA or other relevant bodies as appropriate. A system was also in place to ensure that urgent communications, safety alerts and notices are reviewed and where appropriate, made available to key staff in a timely manner.

Ms Knox confirmed that arrangements were in place to monitor, audit and review the effectiveness and quality of care delivered to patients at appropriate intervals. If required an action plan is developed and embedded into practice to address any shortfalls identified during the audit process.

A whistleblowing/raising concerns policy was available. Discussion with staff confirmed that they were aware of who to contact if they had a concern.

Ms Knox demonstrated a clear understanding of her role and responsibility in accordance with legislation. It was confirmed that the Statement of Purpose and Patient's Guide are kept under review, revised and updated when necessary and available on request.

The RQIA certificate of registration was up to date and displayed appropriately.

Observation of insurance documentation confirmed that current insurance policies were in place.

Patient and staff views

The patient who submitted a questionnaire response indicated that they felt that the service is well managed. No comments were included in submitted questionnaire response.

All submitted staff questionnaire responses indicated that they felt that the service is well led. Staff spoken with during the inspection concurred with this. No comments were included in submitted questionnaire responses.

Areas for improvement

No areas for improvement were identified during the inspection.

Number of requirements	0	Number of recommendations	0
-------------------------------	----------	----------------------------------	----------

5.0 Quality improvement plan

Any issues identified during this inspection are detailed in the QIP. Details of the QIP were discussed with Ms Knox, registered person, as part of the inspection process. The timescales commence from the date of inspection.

The registered provider/manager should note that failure to comply with regulations may lead to further enforcement action including possible prosecution for offences. It is the responsibility of the registered provider to ensure that all requirements and recommendations contained within the QIP are addressed within the specified timescales.

Matters to be addressed as a result of this inspection are set in the context of the current registration of the dental practice. The registration is not transferable so that in the event of any future application to alter, extend or to sell the premises RQIA would apply standards current at the time of that application.

5.1 Statutory requirements

This section outlines the actions which must be taken so that the registered provider meets legislative requirements based on The Independent Health Care Regulations (Northern Ireland) 2005.

5.2 Recommendations

This section outlines the recommended actions based on research, recognised sources and DHSSPS Minimum Standards for Dental Care and Treatment (2011). They promote current good practice and if adopted by the registered provider/manager may enhance service, quality and delivery.

5.3 Actions to be taken by the registered provider

The QIP should be completed and detail the actions taken to meet the legislative requirements and recommendations stated. The registered provider should confirm that these actions have been completed and return the completed QIP to RQIA's office (non paperlite) for assessment by the inspector.

It should be noted that this inspection report should not be regarded as a comprehensive review of all strengths and areas for improvement that exist in the service. The findings reported on are those which came to the attention of RQIA during the course of this inspection. The findings contained within this report do not exempt the registered provider from their responsibility for maintaining compliance with the regulations and standards. It is expected that the requirements and recommendations outlined in this report will provide the registered provider with the necessary information to assist them to fulfil their responsibilities and enhance practice within the service.

Quality Improvement Plan	
Statutory requirements	
Requirement 1	The registered person must ensure that enhanced AccessNI checks are undertaken and received prior to the commencement of employment of any new staff, including self-employed staff.
Ref: Regulation 19 (2) schedule 2 (as amended)	Response by registered provider detailing the actions taken: <i>In future, any new member of staff will not commence employment until after the enhanced Access NI check has been received</i>
Stated: First time	
To be completed by: 2 February 2017
