1. Summary of Inspection

An announced care inspection took place on 18 May 2015 from 09:50 to 11:40. Overall on the day of the inspection the management of medical emergencies and recruitment and selection were found to be safe, effective and compassionate. The outcome of the inspection found no areas of concern.

This inspection was underpinned by The Independent Health Care Regulations (Northern Ireland) 2005, The Regulation and Improvement Authority (Independent Health Care) (Fees and Frequency of Inspections) (Amendment) Regulation 2011, The DHSSPS Minimum Standards for Dental Care and Treatment (2011), Resuscitation Council (UK) guidelines on quality standards for cardiopulmonary resuscitation practice and training in primary dental care (November 2013), Resuscitation Council (UK) guidelines on minimum equipment list for cardiopulmonary resuscitation in primary dental care (November 2013), and the British National Formulary (BNF) guidelines on medical emergencies in dental practice.

1.1 Actions/Enforcement Taken Following the Last Care Inspection

There were no requirements or recommendations made following the previous care inspection on 8 August 2014.

1.2 Actions/Enforcement Resulting from this Inspection

Enforcement action did not result from the findings of this inspection.

1.3 Inspection Outcome

	Requirements	Recommendations
Total number of requirements and recommendations made at this inspection	0	0

This inspection resulted in no requirements or recommendations being made. Findings of the inspection can be found in the main body of the report.

2. Service Details

Registered Organisation/Registered Person: Miss Alyson Graham, Mr Connor Gale and Miss Hazel Ross	Registered Manager: Miss Alyson Graham
Person in Charge of the Practice at the Time of Inspection: Miss Alyson Graham, Mr Connor Gale and Miss Hazel Ross	Date Manager Registered: 10 January 2012
Categories of Care: Independent Hospital (IH) – Dental Treatment	Number of Registered Dental Chairs: 3

3. Inspection Focus

The themes for the 2015/16 year are as follows:

- Medical and other emergencies; and
- Recruitment and selection

4. Methods/Process

Specific methods/processes used in this inspection include the following:

Prior to inspection the following records were analysed: staffing information, patient consultation report, and complaints declaration.

During the inspection the inspector met with Miss Alyson Graham and Miss Hazel Ross, registered providers, and two dental nurses.

The following records were examined during the inspection: relevant policies and procedures, training records, two staff personnel files, job descriptions, contracts of employment, and three patient medical histories.

5. The Inspection

5.1 Review of Requirements and Recommendations from the Previous Inspection

The previous inspection of the practice was an announced care inspection dated 8 August 2014. No requirements or recommendations were made during this inspection.

5.2 Review of Requirements and Recommendations from the Last Care Inspection Dated 8 August 2014

As above.

5.3 Medical and Other Emergencies

Is Care Safe?

Review of training records and discussion with staff confirmed that the management of medical emergencies is included in the induction programme and training is updated on an annual basis, in keeping with the General Dental Council (GDC) Continuing Professional Development (CPD) requirements.

Discussion with staff confirmed that they were knowledgeable regarding the arrangements for managing a medical emergency and the location of medical emergency medicines and equipment.

Review of medical emergency arrangements evidenced that emergency medicines are provided in keeping with the British National Formulary (BNF), and that emergency equipment as recommended by the Resuscitation Council (UK) guidelines is retained in the practice. It was observed that the format of Midazolam available is not the format recommended by the Health and Social Care Board (HSCB). Miss Ross was advised that when the current format

of Midazolam expires it should be replaced with Buccolam Pre-filled syringes as recommended by the HSCB. A robust system is in place to ensure that emergency medicines and equipment do not exceed their expiry date. There is an identified individual within the practice with responsibility for checking emergency medicines and equipment.

Discussion with staff and review of documentation demonstrated that recording and reviewing patients' medical histories is given high priority in this practice.

Overall on the day of the inspection the arrangements for managing a medical emergency were found to be safe.

Is Care Effective?

The policy for the management of medical emergencies reflected best practice guidance. Protocols are available for staff reference outlining the local procedure for dealing with the various medical emergencies.

Discussion with staff demonstrated that they have a good understanding of the actions to be taken in the event of a medical emergency and the practice policies and procedures.

Discussion with Miss Graham, Miss Ross and staff demonstrated that there have been two medical emergencies in the practice since the previous inspection. Discussion with the staff involved in the management of these medical emergencies demonstrated that they were managed in accordance with best practice guidance. The details of the medical emergencies were recorded in the patient's notes.

Overall on the day of the inspection the arrangements for managing a medical emergency were found to be effective.

Is Care Compassionate?

Review of standard working practices demonstrated that the management of medical and other emergencies incorporate the core values of privacy, dignity and respect.

During discussion staff demonstrated a good knowledge and understanding of the core values that underpins all care and treatment in the practice.

Overall on the day of the inspection the arrangements for managing a medical emergency were found to be compassionate.

Areas for Improvement

No areas for improvement were identified during the inspection.

Number of Requirements:	0	Number of Recommendations:	0

5.4 Recruitment and Selection

Is Care Safe?

There was a recruitment policy and procedure available. The policy was comprehensive and reflected best practice guidance.

Two personnel files of staff recruited since registration with RQIA were examined. The following was noted:

- positive proof of identity, including a recent photograph;
- evidence that an enhanced AccessNI check was received after the staff commenced work in the practice;
- written references were not available in respect of either staff member;
- details of full employment history, including an explanation of any gaps in employment;
- documentary evidence of qualifications, where applicable;
- evidence of current GDC registration, where applicable;
- criminal conviction declaration on application;
- confirmation that the person is physically and mentally fit to fulfil their duties; and
- evidence of professional indemnity insurance, where applicable.

Both staff files reviewed confirmed that an enhanced AccessNI check was received after employment had commenced. A requirement was made during the announced care inspection dated 22 July 2012 in regards to the procedure to be followed in relation to enhanced AccessNI checks. Review of documentation and discussion with Miss Graham and Miss Ross demonstrated that following this inspection a recruitment checklist was developed, this checklist includes the procedure for enhanced AccessNI checks.

As discussed previously both staff files reviewed confirmed that written references were not available. This was discussed with Miss Graham and Miss Ross who confirmed that one of the identified staff members was returning to work following a career break and the other staff member was a student dental nurse who had completed her placements in the practice. Under these circumstances the registered providers considered that obtaining references was not required.

Miss Graham and Miss Ross confirmed that in the future all documentation as specified in Schedule 2 of the 2005 Regulations will be retained in staff personnel files for any newly recruited staff.

A staff register was retained containing staff details including, name, date of birth, position; dates of employment; and details of professional qualification and professional registration with the GDC, where applicable.

Miss Graham and Miss Ross confirmed that a robust system is in place to review the professional indemnity status of registered dental professionals who require individual professional indemnity cover. A review of a sample of records demonstrated that the appropriate indemnity cover is in place.

Overall on the day of the inspection, recruitment and selection procedures were found to be safe.

Is Care Effective?

The dental service's recruitment and selection procedures comply with all relevant legislation including checks to ensure qualifications, registrations and references are bona fide.

Two personnel files were reviewed. It was noted that each file included a contract of employment/agreement and job description.

Induction programme templates are in place relevant to specific roles within the practice. A sample of two evidenced that induction programmes are completed when new staff join the practice.

Discussion with Miss Graham and Miss Ross confirmed that staff have been provided with a job description, contract of employment/agreement and have received induction training when they commenced work in the practice.

Discussion with staff confirmed that they are aware of their roles and responsibilities.

Clinical staff spoken with confirmed that they have current GDC registration and that they adhere to GDC CPD requirements.

Overall on the day of the inspection recruitment and selection procedures were found to be effective.

Is Care Compassionate?

Review of recruitment and selection procedures demonstrated good practice in line with legislative requirements.

Recruitment and selection procedures, including obtaining an enhanced AccessNI check, minimise the opportunity for unsuitable people to be recruited in the practice. Miss Graham and Miss Ross confirmed that an enhanced AccessNI disclosure will be in place, prior to newly recruited staff commencing work in the practice in the future.

Discussion with staff demonstrated that they have a good knowledge and understanding of the GDC Standards for the Dental Team and the Scope of Practice.

Discussion with staff demonstrated that the core values of privacy, dignity, respect and patient choice are understood.

Overall on the day of the inspection recruitment and selection procedures were found to be compassionate.

Areas for Improvement

No areas for improvement were identified during the inspection.

Number of Requirements:	0	Number of Recommendations:	0

5.5 Additional Areas Examined

5.5.1 Staff Consultation/Questionnaires

During the course of the inspection, the inspector spoke with Miss Graham, Miss Ross, registered providers and two dental nurses. Questionnaires were also provided to staff prior to the inspection by the practice on behalf of the RQIA. Four were returned to RQIA within the timescale required.

Review of submitted questionnaires and discussion with staff evidenced that they were provided with a job description and contract of employment/agreement on commencing work in the practice. Staff also confirmed that induction programmes are in place for new staff which includes the management of medical emergencies. Staff confirmed that annual training is provided on the management of medical emergencies.

5.5.2 Complaints

It is not in the remit of RQIA to investigate complaints made by or on the behalf of individuals, as this is the responsibility of the providers. However, if there is considered to be a breach of regulation as stated in The Independent Health Care Regulations (Northern Ireland) 2005, RQIA has a responsibility to review the issues through inspection.

A complaints questionnaire was forwarded by the Regulation and Quality Improvement Authority (RQIA) to the practice for completion. The evidence provided in the returned questionnaire, review of documentation and discussion with Miss Graham and Miss Ross indicated that complaints have been managed in accordance with best practice.

5.5.3 Patient Consultation

The need for consultation with patients is outlined in The Independent Health Care Regulations (Northern Ireland) 2005, Regulation 17 (3) and The Minimum Standards for Dental Care and Treatment 2011, Standard 9. A patient consultation questionnaire was forwarded by the Regulation and Quality Improvement Authority (RQIA) to the practice for completion. A copy of the most recent patient satisfaction report was submitted to RQIA prior to the inspection.

Review of the most recent patient satisfaction report demonstrated that the practice pro-actively seeks the views of patients about the quality of treatment and other services provided. Patient feedback whether constructive or critical, is used by the practice to improve, as appropriate.

No requirements or recommendations resulted from this inspection.
