Assurance, Challenge and Improvement in Health and Social Care

1.0 Summary

An announced premises inspection of Whitehead Dental Practice took place on 28 February 2017 from 10:30 to 11:30.

The inspection sought to assess progress with any issues raised during and since the last premises inspection and to determine if the establishment was delivering safe, effective and compassionate care and if the service was well led.

Is care safe?

On the day of the inspection the premises supported the delivery of safe care.

Is care effective?

On the day of the inspection the premises supported the delivery of effective care.

Is care compassionate?

On the day of the inspection the premises supported the delivery of compassionate care.

Is the service well led?

On the day of the inspection the management of the premises was considered to be well led.

This inspection was underpinned by The Independent Health Care Regulations (Northern Ireland) 2005 and the Minimum Care Standards for Independent Healthcare Establishments July 2014.

1.1 Inspection outcome

	Requirements	Recommendations
Total number of requirements and recommendations made at this inspection	0	0

This inspection resulted in no requirements or recommendations being made. Findings of the inspection were discussed with Mrs Angela McClure, Registered Manager as part of the inspection process and can be found in the main body of the report.

Enforcement action did not result from the findings of this inspection.

1.2 Actions/enforcement taken following the most recent premises inspection

There were no further actions required to be taken following the most recent inspection.

2.0 Service Details

Registered organisation/registered provider: Mrs Angela Helen McClure	Registered manager: Mrs Angela Helen McClure
Person in charge of the establishment at the time of inspection: Mrs Angela Helen McClure	Date manager registered: 02/03/2012
Categories of care: Independent Hospital (IH) – Dental Treatment	Number of registered places: 2

3.0 Methods/processes

Prior to inspection the following records were analysed: Previous premises inspection report, statutory notifications over the past 12 months, and the duty call log.

During the inspection the inspector met with Mrs Angela McClure, Registered Manager.

The following records were examined during the inspection: Copies of service records and in-house log books relating to the maintenance and upkeep of the building and engineering services, legionellae risk assessment, and fire risk assessment.

4.0 The inspection

4.1 Review of requirements and recommendations from the most recent inspection dated 29 June 2016

The most recent inspection of the establishment was an unannounced care inspection. The completed QIP was returned on 22 August 2016. This QIP will be validated by the specialist inspector at their next inspection.

4.2 Review of requirements and recommendations from the last premises inspection

This was the first premises inspection for this establishment.

4.3 Is care safe?

A range of documentation in relation to the maintenance and upkeep of the premises was presented for review during this premises inspection. This documentation included inspection and test reports for various elements of the engineering services and risk assessments.

Documentation relating to the safe operation of the premises, installations and engineering services was presented for review during this premises inspection.

A range of fire protection measures are in place for the premises. This includes a fire detection and alarm system, emergency lighting, first aid fire-fighting equipment, structural fire separation and protection to the means of escape.

The standard used by the registered person to determine the overall level of fire safety within the premises takes account of the interaction between the physical fire precautions, the fire hazards, the number of service users, the management policies and the availability of adequately trained staff. This standard has been referenced in the fire risk assessment.

Suitable procedures appear to be in place for regular cleaning and disinfection of the dental unit water lines (DUWL's) at each chair and Mrs Angela McClure has demonstrated that these procedures are in accordance with the manufacturer's recommendations.

This supports the delivery of safe care and no areas for improvement were identified during the inspection.

Number of requirements	0	Number of recommendations:	0
-------------------------------	----------	-----------------------------------	----------

4.4 Is care effective?

There are arrangements in place for routine premises management and upkeep as well as timely breakdown/repair maintenance.

This supports the delivery of effective care and no areas for improvement were identified during the inspection.

Number of requirements	0	Number of recommendations:	0
-------------------------------	----------	-----------------------------------	----------

4.5 Is care compassionate?

The areas of the premises reviewed during this premises inspection were well presented, comfortable, clean, free from malodours and adequately lit.

This supports the delivery of compassionate care and no areas for improvement were identified during the inspection.

Number of requirements	0	Number of recommendations:	0
-------------------------------	----------	-----------------------------------	----------

4.6 Is the service well led?

Premises related policies and documentation are retained in a manner which is accessible to relevant people.

Arrangements are in place for managing premises related incidents/notifiable events and Medical Device and Equipment Alerts.

The registered person has dealt appropriately with previous RQIA QIP items and other relevant issues relating to the premises and has been adequately supported and resourced by the registered responsible person.

There are appropriate relationships with maintenance personnel, specialist contractors and other statutory regulators where appropriate.

This supports a well led service and no areas for improvement were identified during the inspection.

Number of requirements	0	Number of recommendations:	0
-------------------------------	----------	-----------------------------------	----------

5.0 Quality improvement plan

There were no issues identified during this inspection, and a QIP is neither required, nor included, as part of this inspection report.

It should be noted that this inspection report should not be regarded as a comprehensive review of all strengths and areas for improvement that exist in the service. The findings reported on are those which came to the attention of RQIA during the course of this inspection. The findings contained within this report do not exempt the registered provider from their responsibility for maintaining compliance with the regulations and standards.
