# NURSING HOME MEDICINES MANAGEMENT INSPECTION REPORT

Inspection No:	IN18407
Establishment ID No:	1467
Name of Establishment:	Donaghcloney
Date of Inspection:	15 September 2014
Inspector's Name:	Paul Nixon

THE REGULATION AND QUALITY IMPROVEMENT AUTHORITY 9th Floor Riverside Tower, 5 Lanyon Place, Belfast, BT1 3BT Tel: 028 9051 7500 Fax: 028 9051 7501

### **1.0 GENERAL INFORMATION**

Name of home:	Donaghcloney
Type of home:	Nursing Home
Address:	1 Monree Road
	Donaghcloney
	Craigavon
	BT66 7HA
Telephone number:	(028) 3888 2343
E mail address:	donaghcloney@fshc.co.uk
Registered Organisation/	Four Seasons Health Care
Registered Provider:	Mr James McCall
Registered Manager:	Mrs Tracey Palmer (Registration pending)
Person in charge of the home at the time of Inspection:	Mrs Tracey Palmer
Categories of care:	NH-I
Number of registered places:	45
Number of patients accommodated on day of inspection:	23
Date and time of current medicines	15 September 2014
management inspection:	10:00 – 13:00
Name of inspector:	Paul Nixon
Date and type of previous medicines	27 February 2014
management inspection:	Unannounced Medicines Management Monitoring inspection

### 2.0 INTRODUCTION

The Regulation and Quality Improvement Authority (RQIA) is empowered under The Health and Personal Social Services (Quality, Improvement and Regulation) (Northern Ireland) Order 2003 to inspect nursing homes. A minimum of two inspections per year is required.

This is the inspection report of an unannounced medicines management inspection to assess the quality of services being provided. The report details the extent to which the standards measured during inspection are being met.

#### PURPOSE OF THE INSPECTION

The purpose of this inspection was to consider whether the service provided to patients was in accordance with their assessed needs and preferences and was in compliance with legislative requirements and current minimum standards, through a process of evaluation of available evidence.

RQIA aims to use inspection to support providers in improving the quality of services, rather than only seeking compliance with regulations and standards. For this reason, annual inspection involves in-depth examination of a limited number of aspects of service provision, rather than a less detailed inspection of all aspects of the service.

The aims of the inspection were to examine the policies, practices and monitoring arrangements for the management of medicines in the home, and to determine and assess the home's implementation of the following:

The HPSS (Quality, Improvement and Regulation) (Northern Ireland) Order 2003

The Nursing Homes Regulations (Northern Ireland) 2005

The Department of Health, Social Services and Public Safety (DHSSPS) Nursing Homes Minimum Standards (2008)

Other published standards which guide best practice may also be referenced during the inspection process.

#### METHODS/PROCESS

Discussion with the home manager, Mrs Tracey Palmer and registered nurses on duty Audit trails carried out on a sample of randomly selected medicines Review of medicine records Observation of storage arrangements Spot-check on policies and procedures Evaluation and feedback

This unannounced inspection was undertaken to examine the arrangements for the management of medicines within the home, and to examine the steps being taken to improve the standards in place for the management of medicines since the previous inspection.

### HOW RQIA EVALUATES SERVICES

The inspection sought to establish the level of compliance being achieved with respect to the following DHSSPS Nursing Homes Minimum Standards (2008) and to assess progress with the issues raised during and since the previous inspection.

Standard 37: Management of Medicines Standard Statement - Medicines are handled safely and securely

Standard 38: Medicine Records

Standard Statement - Medicine records comply with legislative requirements and current best practice

Standard 39: Medicines Storage Standard Statement - Medicines are safely and securely stored

An outcome level was identified to describe the service's performance against each criterion that the inspector examined. Table 1 sets the definitions that RQIA has used to categorise the service's performance:

# Table 1: Compliance statements

Guidance - Compliance statements		
Compliance statement	Definition	Resulting Action in Inspection Report
0 - Not applicable		A reason must be clearly stated in the assessment contained within the inspection report
1 - Unlikely to become compliant		A reason must be clearly stated in the assessment contained within the inspection report
2 - Not compliant	Compliance could not be demonstrated by the date of the inspection.	In most situations this will result in a requirement or recommendation being made within the inspection report
3 - Moving towards compliance	Compliance could not be demonstrated by the date of the inspection. However, the service could demonstrate a convincing plan for full compliance by the end of the inspection year.	In most situations this will result in a requirement or recommendation being made within the inspection report
4 - Substantially compliant	Arrangements for compliance were demonstrated during the inspection. However, appropriate systems for regular monitoring, review and revision are not yet in place.	In most situations this will result in a recommendation, or in some circumstances a requirement, being made within the inspection report
5 - Compliant	Arrangements for compliance were demonstrated during the inspection. There are appropriate systems in place for regular monitoring, review and any necessary revisions to be undertaken.	In most situations this will result in an area of good practice being identified and being made within the inspection report.

### 3.0 PROFILE OF SERVICE

Donaghcloney Care Home was first registered in June 1988.

The facility is located in Donaghcloney village, and is comprised of two buildings, Donaghcloney House, a listed building, and Monree Lodge, a purpose built unit.

On 17 December 2010, Donaghcloney House closed and patients were transferred to Monree Lodge.

Monree Lodge is a two storey facility which comprises of 15 single and seven double bedrooms, three sitting rooms, a foyer area, dining room, kitchen, toilet / washing facilities, staff accommodation and offices.

#### 4.0 EXECUTIVE SUMMARY

An unannounced medicines management inspection of Donaghcloney was undertaken by Paul Nixon, RQIA Pharmacist Inspector, on 15 September 2014 between 10:00 and 13:00 hours. This summary reports the position in the home at the time of the inspection.

The purpose of this inspection was to consider whether the service provided to patients was in compliance with legislative requirements and current minimum standards, through a process of evaluation of the available evidence. The inspector examined the arrangements for medicines management within the home and focused on three medicine standards in the DHSSPS Nursing Homes Minimum Standards (2008):

- Standard 37: Management of Medicines
- Standard 38: Medicine Records
- Standard 39: Medicines Storage.

During the course of the inspection, the inspector met with the home manager, Mrs Tracey Palmer. The inspector observed practices for medicines management in the home, inspected storage arrangements for medicines, examined a selection of medicine records and conducted an audit of a sample of randomly selected medicines.

This inspection indicated that the arrangements for the management of medicines in Donaghcloney are substantially compliant with legislative requirements and best practice guidelines. The outcome of the medicines management inspection found no significant areas of concern though one area for improvement was noted. The registered manager and staff are commended for their efforts.

No requirements or recommendions were made at the previous medicines management inspection, on 27 February 2014.

Since the previous inspection RQIA has monitored the management of medicines in the home through the reporting of any medicine incidents and from discussion with other inspectors.

Areas of good practice were noted and highlighted during the inspection and the members of staff are commended for their efforts. These include the robust audit arrangements, the additional monitoring arrangements for the Schedule 3 controlled drug tramadol and the Schedule 4 (Part 1) controlled drug diazepam, the high standard of maintenance of the

medicine records and the additional records in place for the recording of warfarin and transdermal opioid patches.

There is a programme of staff training in the home. There are annual medicines management competency assessments for staff members who manage medicines.

The outcomes of a range of audit trails, which was performed on randomly selected medicines, showed that medicines had been administered in accordance with the prescribers' instructions.

The prescribers should be requested to review any laxatives prescribed for regular administration but which are only being administered on a 'when required' basis.

Medicine records had been maintained in a very satisfactory manner.

Medicines were stored safely and securely, in accordance with legislative requirements and the manufacturers' instructions.

The inspection attracted one recommendation. The recommendation is detailed in the Quality Improvement Plan.

The inspector would like to thank the home manager and staff for their assistance and co-operation throughout the inspection.

### 5.0 FOLLOW-UP ON PREVIOUS ISSUES

There were no requirements or recommendations arising from the previous medicines management inspection on 27 February 2014:

### STANDARD 37 - MANAGEMENT OF MEDICINES Medicines are handled safely and securely.

Criterion Assessed:	COMPLIANCE LEVEL
37.1 The management of medicines is in accordance with legislative requirements, professional standards and	
DHSSPS guidance.	
Inspection Findings:	
A range of audits was performed on randomly selected medicines, with an emphasis on those medicines not dispensed in the monitored dosage system blister packs. These audits indicated that medicines are being administered to patients in accordance with the prescribers' instructions. Some laxative medications, prescribed for regular administration, were only being administered on a 'when required' basis. The prescriber should be requested to review these medicines. A recommendation is stated. The home manager and nursing staff advised that written confirmation of current medicine regimes is obtained	Substantially compliant
from a healthcare or social care professional for new admissions to the home. Evidence of the confirmation of dosage regimes was examined for one recently admitted patient.	
The process for obtaining prescriptions was reviewed. The home manager and nursing staff advised that prescriptions are reviewed by the home before being sent to the pharmacy for dispensing.	
The current written confirmation of warfarin dosage regimes was held on the file and a separate warfarin administration record is made. A daily running balance of warfarin tablets is maintained.	
The records in place for the use of 'when required' anxiolytic or antipsychotic medicines in the management of distressed reactions were examined for three patients. Each patient had a care plan in place for the management of distressed reactions which detailed when the medicine should be administered. The parameters for administration were recorded on the personal medication record. The reasons for administration and outcomes are recorded in the daily shift reports.	

# STANDARD 37 - MANAGEMENT OF MEDICINES

Criterion Assessed:	COMPLIANCE LEVEL
37.2 The policy and procedures cover each of the activities concerned with the management of medicines. <b>Inspection Findings:</b>	
There are written policies and procedures detailing the arrangements for the management of medicines. These were not examined in detail during the inspection.	Compliant
There are Standard Operating Procedures for the management of controlled drugs.	
Criterion Assessed:	COMPLIANCE LEVEL
37.3 Staff who manage medicines are trained and competent. A record is kept of all medicines management training completed by staff.	
Inspection Findings:	
There is a programme of staff medicines management training in the home. The home manager confirmed that staff who manage medicines are trained and competent. A record of the medicines management training and development activities completed by the staff is maintained.	Compliant
Criterion Assessed:	COMPLIANCE LEVEL
37.4 The impact of medicines management training is evaluated as part of the quality improvement process, and through supervision and appraisal of staff.	
Inspection Findings:	
There are medicines management competency assessments for staff members who manage medicines. Competencies are updated annually for all relevant staff. A sample of the staff competency assessments was examined and was observed to have been appropriately completed.	Compliant

# STANDARD 37 - MANAGEMENT OF MEDICINES

Criterion Assessed:	COMPLIANCE LEVEL
37.5 Medication errors and incidents are reported, in accordance with procedures, to the appropriate authorities.	
Inspection Findings:	
Medication errors and incidents are reported, in accordance with procedures, to the appropriate authorities.	Compliant
Criterion Assessed:	COMPLIANCE LEVEL
37.6 Pharmaceutical waste is disposed of in accordance with legislative requirements and DHSSPS guidelines.	
Inspection Findings:	
Discontinued or expired medicines are placed into designated clinical waste bins by nursing staff. The home manager and nursing staff stated that two nurses dispose of all pharmaceutical waste into these bins. Two nurses denature controlled drugs. The waste bins are removed by a waste disposal contractor.	Compliant
<b>Criterion Assessed:</b> 37.7 Practices for the management of medicines are systematically audited to ensure they are consistent with the home's policy and procedures, and action is taken when necessary.	COMPLIANCE LEVEL
Inspection Findings:	
There was recorded evidence that practices for the management of medicines are audited to ensure they are consistent with the home's policy and procedures, and action is taken when necessary. The dates and times of opening are recorded on the medicine contaianers in order to facilitate the audit activity. This good practice is commended.	Compliant

# STANDARD 38 - MEDICINE RECORDS

### Medicine records comply with legislative requirements and current best practice.

Criterion Assessed: 38.1 Medicine records are constructed and completed in such a manner as to ensure that there is a clear audit trail.	COMPLIANCE LEVEL
Inspection Findings:	
The medicine records were observed to have been constructed and completed in a manner that facilitates audit activity. Staff are commended for their efforts.	Compliant
Criterion Assessed: 38.2 The following records are maintained: • Personal medication record • Medicines administered • Medicines requested and received • Medicines transferred out of the home • Medicines disposed of.	COMPLIANCE LEVEL
Inspection Findings:	
A randomly selected sample of the above medicine records was assessed. These records had been maintained in a very satisfactory manner.	Compliant
The personal medication records examined contained the required information and the entries had been signed by two registered nurses.	
The medicine administration record sheets examined were fully and accurately completed.	
The records of receipts and disposals of medicines contained the necessary information.	

### **STANDARD 38 - MEDICINE RECORDS**

Criterion Assessed: 38.3 The receipt, administration and disposal of all Schedule 2 controlled drugs are recorded in a controlled drug register.	COMPLIANCE LEVEL
Inspection Findings:	
A sample of controlled drugs record entries was reviewed and observed to have been maintained in the required manner.	Compliant

INSPECTOR'S OVERALL ASSESSMENT OF THE NURSING HOME'S COMPLIANCE LEVEL AGAINST THE STANDARD ASSESSED	COMPLIANCE LEVEL
	Compliant

### **STANDARD 39 - MEDICINES STORAGE** Medicines are safely and securely stored.

Criterion Assessed: 39.1 Medicines are stored securely under conditions that conform to statutory and manufacturers' requirements.	COMPLIANCE LEVEL
Inspection Findings:	
Medicines were observed to be stored securely under conditions that conform to statutory and manufacturers' requirements.	Compliant
Storage was observed to be tidy and organised. There was sufficient storage space for medicines in the medicine trolleys and medicine cupboards.	
The temperature range of the medicine refrigerator is monitored and recorded each day. Temperatures had been maintained within the recommended range.	
Criterion Assessed:	COMPLIANCE LEVEL
39.2 The key of the controlled drug cabinet is carried by the nurse-in-charge. Keys to all other medicine cupboards and trolleys are securely held by either the nurse-in-charge or by a designated nurse. The safe custody of spare keys is the responsibility of the registered manager.	
Inspection Findings:	
The medicine keys were observed to be in the possession of the registered nurses on duty. The controlled drug cabinet key was observed to be carried by the designated registered nurse, separately from the other medicine keys.	Compliant

Criterion Assessed: 39.3 Quantities of Schedule 2 controlled drugs and Schedule 3 controlled drugs subject to safe custody requirements are reconciled on each occasion when responsibility for safe custody is transferred.	COMPLIANCE LEVEL
Inspection Findings:	
Quantities of Schedule 2 and Schedule 3 controlled drugs subject to safe custody requirements are reconciled by two registered nurses twice daily, at each handover of responsibility.	Compliant
Records of stock balance checks were inspected and found to be satisfactory.	
Stocks of the Schedule 3 controlled drug tramadol and the Schedule 4 (Part 1) controlled drug diazepam are also reconciled at each handover of responsibility. This good practice is commended.

#### 8.0 QUALITY IMPROVEMENT PLAN

All registered establishments and agencies are required to comply with The Health and Personal Social Services (Quality, Improvement and Regulation) (Northern Ireland) Order 2003 (the 2003 Order) and the subordinate regulations specific to the particular service being provided.

Registered providers/managers are also expected to ensure that their service operates in accordance with the minimum standards relevant to their establishment or agency that have been issued by the Department of Health, Social Services and Public Safety (DHSSPS).

Enforcement action is an essential element of the responsibilities of RQIA under the 2003 Order, and is central to the aim of RQIA to protect the safety of patients and to bring about sustained improvements in the quality of service provision.

In line with the principles set out in the Enforcement Policy, RQIA will normally adopt a stepped approach to enforcement where there are areas of concern. Any enforcement action taken by RQIA will be proportionate to the risks posed to patients and the seriousness of any breach of legislation.

The Quality Improvement Plan (QIP) appended to this report details the action required to ensure compliance with legislation and improvement in the quality of the service. These details were discussed with **Mrs Tracey Palmer (Home Manager)**, during the inspection, as part of the inspection process. The registered provider must record comments on the QIP and return it to RQIA within the required timeframe.

Registered providers/managers should note that failure to comply with regulations may lead to further enforcement action. It should also be noted that under the 2003 Order, failure to comply with some regulations is considered to be an offence and RQIA has the power to prosecute in conjunction with other enforcement action, for example place conditions on registration.

Enquiries relating to this report should be addressed to:

Paul Nixon The Regulation and Quality Improvement Authority 9th Floor Riverside Tower 5 Lanyon Place Belfast BT1 3BT

### QUALITY IMPROVEMENT PLAN

### NURSING HOME UNANNOUNCED MEDICINES MANAGEMENT INSPECTION

## DONAGHCLONEY 15 September 2014

The areas where the service needs to improve, as identified during this inspection visit, are detailed in the inspection report and Quality Improvement Plan. Timescales for completion commence from the date of inspection.

The specific actions set out in the Quality Improvement Plan were discussed with Mrs Tracey Palmer (Home Manager), during the inspection visit.

Any matters that require completion within 28 days of the inspection visit have also been set out in separate correspondence to the registered persons.

Registered providers / managers should note that failure to comply with regulations may lead to further enforcement and/ or prosecution action as set out in The HPSS (Quality, Improvement and Regulation) (Northern Ireland) Order 2003.

It is the responsibility of the registered provider / manager to ensure that all requirements and recommendations contained within the Quality Improvement Plan are addressed within the specified timescales.

Matters to be addressed as a result of this inspection are set in the context of the current registration of your premises. The registration is not transferable so that in the event of any future application to alter, extend or to sell the premises RQIA would apply standards current at the time of that application.
