

**21 December 2021**

## **Lakeview Hospital**

Following a recent inspection at Lakeview Hospital (over August and early September 2021), RQIA met with senior management at the Western Health and Social Care Trust, who provide the services at Lakeview Hospital.

We shared our findings and requirements for areas of improvement needed. The Trust has provided RQIA with a comprehensive action plan and taken steps to address the immediate issues.

RQIA continues to monitor progress and do plan to inspect again. We will publish the report of our inspection findings on our website in January 2022.

Should any family member have any concern about this service please contact RQIA at:
